Abstracts

Global cell & gene therapy cold chain logistics market valued at USD1316.93 million in the year 2021, that is also anticipated to grow at a CAGR of 14.29% during the forecast period, 2023-2027 to achieve a market value of USD2880.76 million by 2027F. The market growth can be attributed to growing instances of chronic diseases like cancer, cardiovascular diseases, neurological disorders. Increasing geriatric population and their susceptibility toward the chronic diseases are also supporting this growth since the demands for the treatment has increased many folds. Rapidly growing clinical trials and FDA approvals toward authorizing cell and gene therapy is also anticipated to support the growth of the global cell & gene therapy cold chain logistics market in the next five years. Increasing approvals are further supporting the surging demands for the cell & gene therapy products and their transportation to different parts of the world, thereby

positively influencing the growth of the global cell & gene therapy cold chain logistics market in the future five years. Increasing number of market players in the industry, and manufacturers of the cell & gene therapy products entering the cold chain logistics market for the storage and preserving cell & gene therapy products in cold chain along with acquiring the existing small players or entering into partnerships & agreements, are expected to facilitate the growth of the global cell & gene therapy cold chain logistics market in the forecast years through 2027.

The global cell & gene therapy cold chain logistics market is segmented by component, services offered, mode of transportation, holding temperature range, end user, regional distribution, and competition landscape. Based on component, the market is further bifurcated into cryogenic shippers, cryogenic storage freezers, ultra-low freezers, cold chain management systems, shipment and storage medium, cryogenic pack-out kits, and others. Cryogenic shippers are anticipated to hold the largest revenue shares of the market and dominate the market segment in the upcoming five years on the grounds of increasing demands for the storage and transportation of cells, tissues, and a variety of other biological samples that require extreme cold storage, for storing and transportation thus driving the growth of the global cell & gene therapy cold chain logistics market in the future five years.

AmerisourceBergen Corporation (World Courier), United Parcel Service (Marken), Catalent, Inc., BioLife Solutions, Inc., Cryoport, Inc., Atelerix Ltd., Biostor Ltd., Thermo Fisher Scientific Inc., Life Science Group Ltd (LSG), Yourway Biopharma Services Company, Bertelsmann SE & Co. KGaA (Arvato Supply Chain Solutions), Be The Match Therapeutics, are among the major market players in the global platform that lead the market growth of the global cell & gene therapy cold chain logistics market.

Years considered for this report:

Historical Years: 2017- 2020

Base Year: 2021

Estimated Year: 2022

Forecast Period: 2023 – 2027

Objective of the Study:

To analyze the market size of global cell & gene therapy cold chain logistics market from 2017 to 2020.

To estimate and forecast the market size of global cell & gene therapy cold chain logistics market from 2021 to 2022 and growth rate until 2027.

To classify and forecast global cell & gene therapy cold chain logistics market based on component, services offered, mode of transportation, holding temperature range, end user, regional distribution, and competition landscape.

To identify dominant region or segment in the global cell & gene therapy cold chain logistics market.

To identify drivers and challenges for global cell & gene therapy cold chain logistics market.

To examine competitive developments such as expansions, new service launches, mergers & acquisitions, etc., in global cell & gene therapy cold chain logistics market.

To identify and analyze the profile of leading players operating in global cell & gene therapy cold chain logistics market.

To identify key sustainable strategies adopted by market players in global cell & gene therapy cold chain logistics market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of service providers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the service providers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the service providers, distribution channels and presence of all major players across the globe.

TechSci Research calculated the market size of global cell & gene therapy cold chain logistics market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced

these values from the industry experts and company representatives and externally validated through analyzing historical data of these services and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Service providers, suppliers

Distributors and other stakeholders

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to cell & gene therapy cold chain logistics

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as service providers, suppliers, partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, global cell & gene therapy cold chain logistics market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Cell & Gene Therapy Cold Chain Logistics Market, By Component:

Cryogenic Shippers

Cryogenic Storage Freezers

Ultra-Low Freezers

Cold Chain Management Systems

Shipment and Storage Medium

Cryogenic Packout Kits

Others

Cell & Gene Therapy Cold Chain Logistics Market, By Services Offered:

Transportation

Storage

Packaging

Cell & Gene Therapy Cold Chain Logistics Market by Mode of Transportation:

Air

Ground

Water

Cell & Gene Therapy Cold Chain Logistics Market, By Holding Temperature Range:

Cryogenic

Refrigerated

Ambient

Others

Cell & Gene Therapy Cold Chain Logistics Market, By End User:

Pharmaceutical & Biotechnology Companies

Academic & Research Institutes

Others

Cell & Gene Therapy Cold Chain Logistics Market, By Region:

North America

United States

Canada

Mexico

Europe

Germany

France

United Kingdom

Spain

Italy

Asia-Pacific

China

Japan

South Korea

Australia

India

South America

Brazil

Argentina

Colombia

Middle East & Africa

Israel

South Africa

Saudi Arabia

UAE

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in global Cell & Gene Therapy Cold Chain Logistics market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

I would like to order

Product name: Global Cell & Gene Therapy Cold Chain Logistics Market, By Component (Cryogenic Shippers, Cryogenic Storage Freezers, Ultra Low Freezers, Cold Chain Management Systems, Shipment and Storage Medium, Cryogenic Packout Kits, Others), By Services Offered (Transportation, Storage, Packaging) By Mode of Transportation (Air, Ground, Water), By Holding Temperature Range (Cryogenic, Refrigerated, Ambient, Others), By End User (Pharmaceutical & Biotechnology Companies, Academic & Research Institutes, Others), By Region, Competition, Forecast and Opportunities, 2017-2027

Product link: <https://marketpublishers.com/r/GBDE8BC192A3EN.html>

Price: US\$ 4,900.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/GBDE8BC192A3EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
