## **Abstracts**

The global coffee machines market is forecast to cross \$17 billion by 2024 owing to rising demand for smart kitchen appliances in households and expanding working class population base. Additionally, rising trend of social gatherings among millennials in caf?s and restaurants, growing inclination towards technologically advanced appliances in hotels, restaurants and caf?s coupled with rising demand for espresso coffee machines is expected to drive global coffee machines market in the coming years.

In terms of product type, the global coffee machines market is categorized into drip/filter coffee machines, espresso coffee machines and pod/capsule coffee machines. Among the product types, espresso coffee machines category accounted for majority of the global market for coffee machines, holding about half of the market share, in value terms, in 2018 and is predicted to remain the dominant category throughout the forecast period as well. There has been continuous technology upgradation in espresso coffee machines category with a large number of products available in market that cater to the needs of residential as well as commercial customers, owing to which the category has been witnessing significant growth.

Years considered for this report:

Historical Years: 2014-2017

Base Year: 2018

Estimated Year: 2019

Forecast Period: 2020–2024

#### Objective of the Study:

To analyze and forecast the market size of global coffee machines market, in terms of value & volume

To classify and forecast global coffee machines market based on product type, by end user, by distribution channel and regional distribution

To identify drivers and challenges for global coffee machines market

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in global coffee machines market

To conduct the pricing analysis for global coffee machines market

To identify and analyze the profile of leading players involved in the global coffee machines market

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of manufacturers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the manufacturers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the service offerings, distribution channels and presence of all major manufacturers across the globe.

TechSci Research calculated the market size of global coffee machines market using a bottom-up approach, where data for various application across various end-user segments was recorded and forecast for the future years. TechSci Research sourced

these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

#### Key Target Audience:

Coffee machines manufacturers, suppliers, distributors and other stakeholders

Major end users of coffee machine

Potential investors

Organizations, forums and alliances related to coffee machines market

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as manufacturers and partners, end users, etc. besides allowing them in strategizing investments and capitalizing on market opportunities.

#### Report Scope:

In this report, global coffee machines market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

##### Market, By Product Type

Drip/Filter Coffee Machines

Espresso Coffee Machines

Pod/Capsule Coffee Machines

##### Market, By End User

Residential

Commercial

Market, By Region:

Asia Pacific

Argentina

Colombia

## Middle East and Africa

South Africa

Saudi Arabia

UAE

## Competitive Landscape

**Company Profiles:** Detailed analysis of the major companies present in global coffee machines market.

## Available Customizations

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

## Company Information

Detailed analysis and profiling of additional market players (up to five).

## Profit Margin Analysis

Profit margin analysis in case of direct and indirect sales channel.
