Abstracts

Global collaborative whiteboard software market was valued USD 1806.30 Billion in 2019 and is forecast to grow at 9.53% CAGR during the forecast period. The global collaborative whiteboard software market is driven by the growing popularity of the software among the project management and design teams. Additionally, special features such as ease of annotations & editing, content sharing from anywhere to any device, among others associated with collaborative whiteboard software is further expected to propel the growth of market until the next few years. Furthermore, technological advancements in the existing software and new software launches with advanced features by the major players is expected to spur the growth of market over the next few years.

The global collaborative whiteboard software market can be segmented based on type, deployment mode, operating system, organization size, application, company and region. Based on organization size, the market can be bifurcated into large enterprises and SMEs. The large enterprises segment is expected to dominate the market with share of 63.60% in 2019 owing to the widespread use of collaborative whiteboard software in large enterprises for business meetings, team collaborations, among others.

Regionally, the collaborative whiteboard software market has been segmented into Asia-

+44 20 8123 2220
info@marketpublishers.com

Pacific, North America, South America, Europe, and Middle East & Africa. Among these regions, North America is expected to dominate the market during forecast period. This can be attributed to the early adoption and advancements in technologies in the region.

Major players operating in the global collaborative whiteboard software market include Cisco Systems Inc, InVisionApp, Miro, MURAL, ezTalks, Explain Everything, BeeCanvas, Stormboard, Bluescape, AWW App, Limnu, Google Jamboard, Conceptboard, SimpleDiagrams, Groupboard, SMART Technologies Inc., Deekit, Twiddla and ZiteBoard. The companies are developing advanced technologies and launching new services in order to stay competitive in the market. Other competitive strategies include mergers & acquisitions and new service developments.

Years considered for this report:

Historical Years: 2015-2018

Base Year: 2019

Estimated Year: 2020

Forecast Period: 2021–2025

Objective of the Study:

To analyze and forecast the market size of global collaborative whiteboard software market.

To classify and forecast global collaborative whiteboard software market based on type, deployment mode, operating system, organization size, application, company and regional distribution.

To identify drivers and challenges for global collaborative whiteboard software market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in global collaborative whiteboard software market.

+44 20 8123 2220
info@marketpublishers.com

To identify and analyze the profile of leading players operating in global collaborative whiteboard software market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of service providers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the service providers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the service providers, distribution channels and presence of all major players across the globe.

TechSci Research calculated the market size of global collaborative whiteboard software market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Collaborative whiteboard software service providers, vendors and other stakeholders

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to collaborative whiteboard software

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as service providers, channel partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, global collaborative whiteboard software market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Market, By Type:

Visual

List-Based

Market, By Deployment Mode:

On-premise

Cloud

Market, By Operating System:

Windows

iOS

Market, By Organization Size:

Large Enterprises

SMEs

Market, By Application:

Business Meetings

Team Collaborations

Others
