Abstracts

Dashboard cameras are devices used to record audio and video in automobiles. HD lenses are installed in dash cams to capture both audio and video even when a vehicle is moving at a fast pace. Moreover, with increasing technological advancements dashboard cameras now come with advanced features, which help automobile owners to track and monitor their vehicles on real time basis. Demand for dashboard cameras has increased globally over the past few years due to introduction of advanced features and rising consumer awareness about various benefits of installing dash cams in their vehicles. Majority of the demand for dashboard cameras is emanating from Asia-Pacific, Europe & CIS and North America regions. Moreover, rising automobile sales, increasing young population and growing need to monitor and track automobiles on real time basis are further anticipated to fuel demand for dashboards cameras across the globe during 2016 - 2021.

According to “Global Dashboard Camera Market By Region, By Technology, By Channel Type, Competition Forecast & Opportunities, 2011 - 2021”, global dashboard camera market is forecast to surpass \$ 3 billion by 2021. On the basis of technology global dashboard camera market has been classified into single channel and multi-channel dashboard cameras. Single channel dashboard cameras dominated global dashboard camera market over the past few years, and the segment is further anticipated to continue its dominance in the market during the forecast period. Some of the leading global dashboard camera manufacturers include Blackvue, Thinkware, PAPAGO, Lukashd, Nextbase, Cobra electronics, Mio technology and Vicovation.

“Global Dashboard Camera Market By Region, By Technology, By Channel Type, Competition Forecast & Opportunities, 2011 - 2021” report elaborates following aspects of the global dashboard camera market:

Global Dashboard Camera Market Size, Share & Forecast

Segmental Analysis – By Region (APAC, Europe, North America, South America and MEA), By Technology (Advanced and Basic), By Single Channel Vs. Multi-Channel

Policy & Regulatory Landscape

Changing Market Trends and Emerging Opportunities

Competitive Landscape and Strategic Recommendations

Why You Should Buy This Report?

To gain an in-depth understanding of Global Dashboard Camera Market

To identify the on-going trends and segment wise anticipated growth in the coming years

To help industry consultants, companies and other stakeholders to align their market-centric strategies

To obtain research based business decision and add weight to presentations and marketing material

To gain competitive knowledge of leading players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer’s specific needs

Report Methodology

The information contained in the global dashboard camera market report is based on

Global Dashboard Camera Market By Region (APAC, Europe, North America, South America and MEA), By Technology (...)

both primary and secondary sources. Primary research included interviews with dashboard camera manufactures, automotive companies, distributors, retailers and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
