Abstracts

Global disposable syringe market was valued USD16.68 billion in value terms in 2020 and is forecast to grow at CAGR of 8.78% in value terms to reach USD27.45 billion by 2026. Increasing prevalence of many chronic diseases that necessitate the use of disposable syringes in their care is expected to drive the Global Disposable Syringes Market over the forecast period. However, the growth in this market is mainly attributed to increasing number of cases of infectious diseases such as COVID-19 and blood borne Infections.

Furthermore, numerous government agencies are funding companies that produce disposable syringes for the care of chronic disease such as Diabetes, which predominate the global disease burden. In the coming years, this is expected to drive market growth.

Also, rising cases of needlestick injuries is further driving the Global Disposable Syringes Market forward.

Global Disposable Syringes Market can be segmented based on type, application, end user, material, and region. Based on application, the market can be segmented into general surgery, therapeutic, diagnostic, respiratory, orthopaedics, cardiovascular, dental and others. Among them, the therapeutic segment is expected to undergo fastest growth owing to introduction of new injectable drugs and spike in prevalence of various chronic disorders that require the administering of therapeutic agents with the help of disposable syringes. Regionally, Asia Pacific is anticipated to undergo fastest growth through 2026 as the region is witnessing growing awareness regarding the use of disposable syringes.

Major companies operating in global disposable syringes market include Baxter International, Inc., Becton, Dickinson and Company, B. Braun Melsungen AG, Cardinal Health, Inc, Hindustan Syringes & Medical Devices Limited, Nipro Medical Corporation, Retractable Technologies, Inc., Terumo Corporation, Teleflex Incorporated and Novo Nordisk A/S, among others. Key market players are undergoing collaborations, new product launch, partnership, and acquisitions as their growth strategies.

Years considered for this report:

Historical Years: 2016-2019

Base Year: 2020

Estimated Year: 2021

Forecast Period: 2022–2026

Objective of the Study:

To analyze historical growth in market size of Global Disposable Syringes Market from 2016 to 2020.

To estimate and forecast the market size of Global Disposable Syringes Market from 2021 to 2026 and growth rate until 2026.

To classify and forecast Global Disposable Syringes Market based on by type, by company, by Application, by material, by end Users and region.

To identify dominant region or segment in the Global Disposable Syringes Market.

To identify drivers and challenges for Global Disposable Syringes Market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in Global Disposable Syringes Market.

To identify and analyze the profile of leading players operating in Global Disposable Syringes Market.

To identify key sustainable strategies adopted by market players in Global Disposable Syringes Market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of manufacturers across the country. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the manufacturers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the manufacturers, distribution channels and presence of all major players across the country.

TechSci Research calculated the market size of India Disposable Syringes Market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Manufacturers, Distributors, and End users

Market research and consulting firms

Government bodies such as regulating authorities and policy makers

Organizations, forums, and alliances related to Disposable Syringes

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as manufacturers, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

In this report, Global Disposable Syringes Market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Global Disposable Syringes Market, By Type:

Conventional Syringes

Pre-filled Syringes

Safety Syringes

Global Disposable Syringes Market, By Application:

General Surgery

Therapeutic

Diagnostic

Respiratory

Orthopedics

Cardiovascular

Dental

Others

Global Disposable Syringes Market, By End User:

Hospitals

Diagnostic Laboratories

Blood Banks

Pharmaceutical Industry

Vaccination

Veterinary Purposes

Others

Global Disposable Syringes Market, By Material:

Glass

Polymer

Global Disposable Syringes Market, By Region:

Asia-Pacific

China

Japan

India

South Korea

Australia

Europe

France

Germany

United Kingdom

Italy

Spain

North America

United States

Mexico

Canada

South America

Brazil

Argentina

Colombia

Middle East & Africa

South Africa

Saudi Arabia

Kuwait

UAE

Competitive Landscape
