Abstracts

According to “Global DOTP Market By Application , By Region, Competition Forecast & Opportunities, 2023” DOTP (Di Octyl Terephthalate Plasticizer) is projected to grow at a CAGR of around 11% by 2023, owing to high efficiency, improved performance and low-level toxic chemicals in DOTP as compared to another phthalates. Moreover, environment-friendly properties of DOTP are further propelling its demand due to growing government regulations and restrictions over the toxic plastic additive chemicals. Additionally, booming end use industries such as building & construction on the back of increasing emphasis on development of smart cities, green buildings and other construction projects coupled with increasing awareness among the consumers regarding better phthalate alternative is anticipated to steer growth in the global DOTP market over the coming years. Some of the major players operating in global DOTP market are Eastman Chemical Company, Aekyung Petrochemical Co. Ltd., BASF SE, Oxea GmbH, Grupa Azoty Zaklady Azotowe Kedzierzyn S.A. (Polish ZAK), Nan Ya Plastics Corporation, UPC Technology Corporation, Exxon Mobil Corporation, LG Chem Ltd., and Bluesail Group co. Ltd. (Bluesail Chemicals Co. Ltd.). “Global DOTP Market By Application , By Region, Competition Forecast & Opportunities, 2023” discusses the following aspects of DOTP market globally:

DOTP Market Size, Share & Forecast

Segmental Analysis – By Application (Building & Construction, Packaging, Automotive, Medical Application & Others), By Region (Asia-Pacific, Europe, North America & Others)

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of DOTP globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, DOTP distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with DOTP distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
