Abstracts

According to “Global Electrical Steel Market By Type, By, By Region, Competition Forecast & Opportunities, 2013 – 2023” electrical steel market is projected to reach \$ 11.1 billion by 2023, on account of growing electricity demand in residential, commercial and industrial sectors, which in turn boosts the use of electrical steel in transformers and motors. Over the coming years, demand for electrical steel from the power sector is expected to grow at a robust pace, on account of huge demand for new transformers in renewable energy sector including wind and solar. Technological advancements, increasing demand for electric hybrid vehicles and government support are some of the other factors that would have a positive impact on the electrical steel market, globally, during forecast period. Some of the major players operating in global electrical steel market are ArcelorMittal, POSCO, ThyssenKrupp Steel Europe, Nippon Steel & Sumitomo Metal Corporation, United States Steel Corporation, China Baowu Steel Group Corporation Limited, TATA Steel Limited, AK Steel Corporation, Hyundai Steel, Ansteel Group Corporation Limited, Hesteel Group Company Limited, etc. “Global Electrical Steel Market By Type, By, By Region, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of Electrical Steel market globally:

Electrical Steel Market Size, Share & Forecast

Segmental Analysis – By Type (Cold Rolled Grain Oriented Vs Cold Rolled Non Grain Oriented), By Application (Power Transformer, Distribution Transformer & Others), By Region

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of Electrical Steel globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, Electrical Steel distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with Electrical Steel distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
