Abstracts

According to “Global Gas Meter Market By Type, By Application and By Region, Competition Forecast and Opportunities, 2012–2022”, Global gas meter market is forecast to exhibit a CAGR of over 8% during 2017-2022, on account of increasing investments in oil & gas downstream projects, growing demand for natural gas, rising environmental concerns and favorable government regulations to restrict oil & gas theft and leakage incidents. Moreover, expanding city gas distribution network and repairing of ageing pipelines, especially in North America and Europe, are further expected to propel global gas meter market through 2022. Few of the leading players in Global gas meter market include Elster, Itron Inc., Dandong Dongfa Group Co., Ltd., Chongqing Shancheng Gas Equipment Co., Ltd, DIEHL Metering, Qianwei Krommschroder, Emerson Process Management., General Electric Company, Siemens Limited, Badger Meter, etc. “Global Gas Meter Market By Type, By Application and By Region, Competition Forecast and Opportunities, 2012–2022” discusses the following aspects of gas meter market globally:

Gas Meter Market Size, Share & Forecast

Segmental Analysis – By Type (Basic Gas Meter and Smart Gas Meter), By Application (Residential, Commercial and Industrial), By Region

Pricing & Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of gas meter market in globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, gas meter manufacturers, distributors and other stakeholders align their market-centric strategies

To obtain research based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with gas meter manufacturers, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
