Abstracts

Global generative design market stood at \$ 137 million in 2018 and is projected to grow to \$ 290 million by 2024, exhibiting a CAGR of over 13% during the forecast period, owing to increasing demand for environment friendly architecture and enhanced production efficiency. Generative design is a design process in which a program generates a certain number of outputs based on number of constraints. Designers or engineers can enter basic parameters such as weight, strength, height and material option, enabling them to offer a myriad number of design options for clients. Innovative advancements such as 3D printing, machine learning and big data are expected to positively affect the growth of the market. Moreover, generative design software helps to solve engineering problems and offers innovative design solutions, which is likely to fuel global generative design market through 2024.

Generative design market can be segmented based on component, deployment mode, application, vertical and region. Based on the component, the market can be bifurcated into solution and services. Solution segment dominated the market in 2018, as it helps to reduce manufacturing time and cut costs of operations. Based on the deployment mode, the market can be segmented into cloud and on-premise. On-premise segment accounted for the largest market share in 2018, as it offers flexibility of customizing software as per the requirements of the organization. On the basis of vertical, the market can be segmented into automotive, aerospace & defense, industrial manufacturing and others. Automotive sector accounts for the largest share in global generative design market, owing to high demand for advanced design software for

reducing production and material costs.

Generative design is gaining traction and expanding to various regions including Asia-Pacific, North America, Europe, South America and the Middle East & Africa. In 2018, North America dominated global generative design market, on the back of adoption of advanced technologies and presence of leading players in the market.

Major players operating in global generative design market include Autodesk, Inc., Desktop Metal, Inc., Ntopology Inc., Altair Engineering Inc., Dassault Syst?mes SE, Bentley Systems, Ansys, MSC Software, ESI Group, etc. Major companies are developing advanced technologies and launching new products in order to stay competitive in the market. Other competitive strategies include mergers & acquisitions and new product developments. In 2019, Autodesk collaborated with HP and GE to design generative design software tools, which are compatible with 3D printers.

Years considered for this report:

Historical Years: 2014-2017

Base Year: 2018

Estimated Year: 2019

Forecast Period: 2020-2024

Objective of the Study:

To analyze and forecast global generative design market size.

To classify and forecast global generative design market based on component, deployment mode, application, vertical and regional distribution.

To identify drivers and challenges for global generative design market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in global generative design market.

To conduct the pricing analysis for global generative design market.

To identify and analyze the profile of leading players operating in global generative design market.

Some of the leading players in global generative design market include Autodesk, Inc., Desktop Metal, Inc., Ntopology Inc., Altair Engineering Inc., Dassault Syst?mes SE, Bentley Systems, Ansys, MSC Software, ESI Group, etc.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of service providers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the service providers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the service offerings, distribution channels and presence of all major service providers across the globe.

TechSci Research calculated global generative design market size using a bottom-up approach, where data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Generative design service providers and end users

Research organizations and consulting companies

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to generative design

The study is useful in providing answers to several critical questions that are important

for industry stakeholders such as service providers and partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, global generative design market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Market, by Component:

Solution

Services

Market, by Deployment Mode:

On-premise

Cloud

Market, by Application:

Production Design & Development

Cost Optimization

Market, by Vertical:

Automotive

Aerospace and Defense

Industrial Manufacturing

Others

Market, by Region:

North America

United States

Canada

Mexico

Europe

Germany

France

United Kingdom

Italy

Spain

Asia-Pacific

China

Japan

South Korea

India

Australia

Middle East & Africa

Saudi Arabia

UAE

Qatar

South Africa

South America

Brazil

Argentina

Colombia

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in global generative design market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY

3. EXECUTIVE SUMMARY

4. VOICE OF CUSTOMER

4.1. Awareness of generative design software

4.2. Key benefits of generative design

4.3. Factors influencing purchase design

5. GLOBAL GENERATIVE DESIGN MARKET OUTLOOK

5.1. Market Size & Forecast

5.1.1. By Value

5.2. Market Share & Forecast

5.2.1. By Component (Solution and Services)

5.2.2. By Deployment Mode (Cloud and On-premise)

5.2.3. By Application (Production Design & Development and Cost Optimization)

5.2.4. By Vertical (Automotive, Aerospace & Defense, Industrial Manufacturing and Others)

5.2.5. By Region (North America; Europe; Asia Pacific; South America and Middle East & Africa)

5.2.6. By Company (2018)

5.3. Market Attractiveness Index

6. NORTH AMERICA GENERATIVE DESIGN MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Component

6.2.2. By Deployment Mode

6.2.3. By Application

6.2.4. By Country

6.3. North America: Country Analysis

6.3.1. United States Generative Design Market Outlook

6.3.1.1. Market Size & Forecast

6.3.1.1.1. By Value

6.3.1.2. Market Share & Forecast

6.3.1.2.1. By Component

6.3.1.2.2. By Deployment Mode

6.3.2. Canada Generative Design Market Outlook

6.3.2.1. Market Size & Forecast

6.3.2.1.1. By Value

6.3.2.2. Market Share & Forecast

6.3.2.2.1. By Component

6.3.2.2.2. By Deployment Mode

6.3.3. Mexico Generative Design Market Outlook

6.3.3.1. Market Size & Forecast

6.3.3.1.1. By Value

6.3.3.2. Market Share & Forecast

6.3.3.2.1. By Component

6.3.3.2.2. By Deployment Mode

7. EUROPE GENERATIVE DESIGN MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Component

7.2.2. By Deployment Mode

7.2.3. By Application

7.2.4. By Country

7.3. Europe: Country Analysis

7.3.1. Germany Generative Design Market Outlook

7.3.1.1. Market Size & Forecast

7.3.1.1.1. By Value

7.3.1.2. Market Share & Forecast

7.3.1.2.1. By Component

7.3.1.2.2. By Deployment Mode

7.3.2. France Generative Design Market Outlook

7.3.2.1. Market Size & Forecast

7.3.2.1.1. By Value

7.3.2.2. Market Share & Forecast
