Abstracts

According to “Global Helium Market By Application, By Type, By, By Region, Competition Forecast & Opportunities, 2013 – 2023” helium market is forecast to surpass \$ 8.2 billion by 2023. Anticipated growth in the market can be attributed to increasing demand for helium across different applications such as hospitality and semiconductor industries. Moreover, players operating in the global helium market are increasingly focusing on exploration activities to augment availability of helium gas, as all current available reserves are likely to fulfil the demand until 2030. Additionally, growing electronics sector, especially in countries like China, Japan and South Korea, is further anticipated to steer growth in the global helium market in the coming years. Few of the major players operating in global helium market include Air Products and Chemicals, Inc., Air Liquide, LINDE AG, Praxair, Inc., Taiyo Nippon Sanso Corporation, Iwatani Corporation, Gulf Cryo, Messer Group, Qatargas Operating Company Limited and Global Gases. “Global Helium Market By Application, By Type, By, By Region, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of helium in global market:

Helium Market Size, Share & Forecast

Segmental Analysis – By Application (MRI & NMR, Semiconductors & Optic Fibers, Ballooning, Leak Detection & Others), By Type (Gaseous & Liquid), By Distribution (Bulk, Packaged & Onsite), By Region

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of helium in global market

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, helium market distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with helium market distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
