Abstracts

Global human insulin market was valued at USD 26.91 Billion in 2019 is expected to grow at a steady CAGR of 8.01% during the forecast period. Growing geriatric population, increasing diabetic patients, rising prevalence of obesity, and increasing demand for human insulin analogs are contributing to the surging demand for human insulin market, globally. Now a days, diabetes is not only restricted to geriatric population, but it is also common among youth. Also, the technological advancements have eradicated human physical activities leading to obesity and diabetes disorders which is directly influencing the growth of the market. Cost effectiveness, reimbursement prices and strict regulatory requirements for approval of insulin can be considered as a major restraining factor for the market as everyone suffering from diabetes might not be able to afford insulin.

The global human insulin market is segmented on the basis of indication, brand, route

of administration, type, onset type, products, and region. Based on indication, market can be bifurcated into type I diabetes and type II diabetes. Type I diabetes is likely to hold the largest market share until 2025 as, human insulin is the most important treatment method for the people suffering from type I diabetes. Based on brand, Lantus segment held the dominant market which is one of the major selling products of Sanofi S.A. As of 2019, subcutaneous segment was the leading segment on the basis of route of administration. This is the most common and preferred route of administration as the insulin is absorbed more quickly. Based on regional analysis, North America dominated the human insulin market in 2019 due to large pool of population suffering from diabetes and presence of leading companies in countries like US and Canada.

Leading players in the global human insulin market include Nektar Therapeutics, MannKind Corporation, Novo Nordisk A/S, Torrent Pharmaceuticals, Inc., Eli Lilly and Company, A-S Medication Solutions, RemedyRepack Inc., Sedico Co., Pharmaceutical Company, Sanofi S.A., Gan & Lee Pharmaceuticals, BioGenomics Ltd., Pfizer Inc., PerkinElmer, Merck & Co., Inc, Biocon Limited, Wockhardt Ltd., Ypsomed AG, Becton Dickinson and Company, B. Braun Melsungen AG, Baxter International Inc., among others.

Years considered for this report:

Historical Years: 2015-2018

Base Year: 2019

Estimated Year: 2020

Forecast Period: 2021–2025

Objective of the Study:

To analyze and forecast the market size of global human insulin market.

To classify and forecast global human insulin market based on indication, brand, route of administration, type, onset type, products and region.

To identify drivers and challenges for global human insulin market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in global human insulin market.

To conduct pricing analysis for global human insulin market.

To identify and analyze the profile of leading players operating in global human insulin market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of hospitals/clinics across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the hospitals/clinics which could not be identified due to the limitations of secondary research. TechSci Research analyzed the hospitals/clinics and presence of all major players across the globe.

TechSci Research calculated the market size of global human insulin market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Hospitals/clinics, research institutes and other stakeholders

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to human insulin

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as hospitals/clinics, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, global human insulin market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Market, By Indication:

Type I Diabetes

Type II Diabetes

Market, By Brand:

Lantus

Humulin R

Novolin R

Humulin N

Exubera

Afrezza

Novolin N

Market, By Route of Administration:

Subcutaneous

Nasal

Intravenous

Transdermal

Oral

Others

Market, By Type:

Basal

Bolus

Pre-mixed

Biosimilar

Traditional

Market, By Onset Time:

Rapid acting

Short-acting

Intermediate acting

Long acting

Ultra-long acting

Pre-mixed

Inhaled

Market, By Products:

Insulin Pens

Insulin Pumps

Infusion System

Injection

Market, By Region:

North America

United States

Mexico

Canada

Europe

Germany

United Kingdom

France

Italy

Spain

Russia

Asia-Pacific

China

India

Japan

South Korea

Australia

Singapore

South America

Brazil

Argentina

Colombia

Middle east & Africa

Saudi Arabia

South Africa

UAE

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in global human insulin market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).
