Abstracts

According to “Global ISO Modal Container Market By Type, By Application, By Transport, By Region, Competition Forecast & Opportunities, 2013 – 2023” ISO modal container market is forecast to reach \$ 2.6 billion by 2023. Anticipated growth in the market can be attributed to increasing government initiatives towards using natural gas and growth in steel industry and refinery throughput. Moreover, demand for LNG is rising at small scale level, which is further fuelling growth in the global ISO modal container market. Additionally, sea-borne LNG trade between North America and Asia-Pacific is growing, which is anticipated to positively influence the global ISO modal container market during forecast period. Asia-Pacific is the major demand generator for ISO modal containers, globally, followed by Europe and North America. Few of the major players operating in the global ISO modal container market include China International Marine Containers Ltd. (CIMC), CXIC Group Containers Company Limited, Chart Industries Inc., Nantong Tank Container Co., Ltd, Air Water Plant & Engineering Inc., Singamas Container Holdings Limited, Galileo Technologies SA, LUXI Group Co. Ltd., Buhold Industries and UBH International Limited and UBH International Limited. “Global ISO Modal Container Market By Type, By Application, By Transport, By Region, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of ISO Modal Container market globally:

ISO Modal Container Market Size, Share & Forecast

Segmental Analysis – By Type (Type-I, Type-II, Type-III and Type-IV), By

Application (LNG, Industrial Gases and Chemical & Petrochemicals), By
Transport (Ship, Road and Rail), By Region

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of ISO Modal Container globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, ISO Modal Container distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with ISO Modal Container distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
