Abstracts

According to “Global Oil & Gas Coring System Market By Type, By Application, By Region, Competition Forecast & Opportunities, 2013-2023” oil & gas coring system market is forecast to surpass \$ 9.7 billion by 2023. Anticipated growth in the market can be attributed to an increase in number of oil & gas exploration & production activities across the globe. Moreover, stringent regulations for exploration & production activities and rising production from offshore fields is further likely to push the demand for oil & gas coring systems in the coming years, globally. Few of the major players operating in the global oil & gas coring system market include Schlumberger Limited, The Halliburton Company, Baker Hughes, a GE company, China National Petroleum Corporation, Weatherford International Plc, Saudi Arabian Oil Company, China National Offshore Oil Corporation, ALS Limited, National Oilwell Varco, and HLS Asia Limited. “Global Oil & Gas Coring System Market By Type, By Application, By Region, Competition Forecast & Opportunities, 2013-2023” discusses the following aspects of oil & gas coring system in global market:

Oil & Gas Coring System Market Size, Share & Forecast

Segmental Analysis – By Type (Bottom Coring and Sidewall Coring), By Application (Onshore and Offshore), By Region (North America, Europe, MEA, South America and Asia-Pacific)

Competitive Analysis

Changing Market Trends & Emerging Opportunities

WHY YOU SHOULD BUY THIS REPORT?

To gain an in-depth understanding of oil & gas coring system in global market

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, oil & gas coring system distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

REPORT METHODOLOGY

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with oil & gas coring system distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
