Abstracts

According to “Global Pesticides Market By Type, By Application, By Formulation (Dry & Liquid), By Region, Competition Forecast & Opportunities, 2013 – 2023” pesticides market is projected to reach \$ 90 billion by 2023. Growth in the market is anticipated on account of shrinking area under cultivation leading to need for higher productivity per acre and increasing demand for nutritional food items, globally. Rising focus towards the eradication of crop production losses and increase the nutritional qualities of the product is further expected to aid market growth in the coming years. Crop protection measures of various governments and organizations leading to weed management programs, coupled with emergence of new trends such as development of Nano pesticides to reduce the effect of pesticide application on environment are anticipated to positively influence the global pesticides market over the coming years. Some of the major players operating in the global pesticides market are Syngenta International AG, Bayer AG, BASF SE, DowDuPont Inc., Monsanto Company, Nufarm Limited, Sumitomo Chemical Co., Ltd., Sinochem Group, China National Chemical Corporation (ChemChina), and FMC Corporation, among others. “Global Pesticides Market By Type, By Application, By Formulation (Dry & Liquid), By Region, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of pesticides in global market:

Pesticides Market Size, Share & Forecast

Segmental Analysis – By Type (Synthetic Pesticides & Bio Pesticides), By

Application (Cereal, Fruits, Plantation Crops, Vegetables & Others), By Formulation (Dry & Liquid), By Region

Competitive Analysis

Changing Market Trends & Emerging Opportunities

WHY YOU SHOULD BUY THIS REPORT?

To gain an in-depth understanding of pesticides in global market

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, pesticides distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

REPORT METHODOLOGY

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with pesticides distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
