Abstracts

According to “Global Portable Generator Market By Fuel Type, By End User, By Power Rating’ By Application, By Region, Competition Forecast & Opportunities, 2024” portable generator market is projected to reach \$ 4.3 billion by 2024. Anticipated growth in the market can be attributed to technological advancements for enhancing the standalone efficiency of engines as well as alternators, growing commercial and residential sectors and increasing number of manufacturing facilities across the globe. Moreover, launch of new green products with optimum utilization of fuel and low noise coupled with implementation of stringent pollution norms is further positively influencing global portable generators market. Additionally, increasing construction activities across the globe is further anticipated to fuel growth in global portable generator market during forecast period. Few of the major players operating in global portable generator market include: Honda Motor Co. Ltd., Yamaha Motor Co., Ltd., Kohler-SDMO, Briggs and Stratton, GENERAC HOLDINGS INC., Caterpillar Inc., Cummins Inc., Kubota Corporation, Wacker Neuson Group and Atlas Copco AB. “Global Portable Generator Market By Fuel Type, By End User, By Power Rating’ By Application, By Region, Competition Forecast & Opportunities, 2024” discusses the following aspects of Portable Generator market globally:

Portable Generator Market Size, Share & Forecast

Segmental Analysis – By Fuel Type (Diesel, Gasoline/Petrol & Natural Gas & LPG), By End User (Commercial, Industrial, etc.), By Power Rating (5-10kVA,

10-20kVA, etc.), By Application, By Region

Competitive Analysis

Changing Market Trends & Emerging Opportunities

WHY YOU SHOULD BUY THIS REPORT?

To gain an in-depth understanding of Portable Generator globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, Portable Generator distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

REPORT METHODOLOGY

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with Portable Generator distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
