Abstracts

Global power electronics market was valued at USD40.52 billion in 2021, that may grow during the forecast period, at 5.61% CAGR to achieve the market value of USD55.91 billion by 2027. Higher consumption of energy and power demands for the heavy electronics drive the growth of the global power electronics market in the upcoming five years. Growing awareness regarding green energy and renewable sources of energy also facilitate the growth of the global power electronics market in the next five years. Increasing dependency over various sources of energy due to higher consumption of energy and power play important role in market growth. Introduction of smart grids that help with the reliable and efficient electrical energy supply, along with the integration of other renewable energy sources into the existing energy network further supports the growth of the global power electronics market in the next five years. Also, growing demands for the electronic vehicles and the benefits of the electronic automotives toward environment stability further aids the growth of the global power electronics market in the future five years. Threat to the environment due to use of coal and petroleum products to fuel the energy consumption has drawn governments focus on alternatives thereby substantiating the growth of the global power electronics market in the forecast years through 2027.

Although higher costs of these power electronics in various developing countries may act as restraining factor toward the market growth. Although, government investment and favorable schemes coupled with the promotional activities and aggressive advertisement of the technological advancement in the power electronics may overcome the market restraint and thereby facilitate the growth of the global power electronics market in the forecast period.

The global power electronics market is segmented by device type, material, voltage, application, regional distribution, and competitive analysis. Based on device type, the market is further segmented into power discrete, power module and power IC. By material, the market is fragmented into silicon, silicon carbide, gallium nitride and others. Based on application, the market is bifurcated into ICT, consumer electronics, industrial, automotive, aerospace & defense, and others. The market is also analyzed among various regions as North America region, South America region, Europe region, Asia Pacific region, and Middle East & Africa region.

In terms of application-based segmentation, automotive segment is anticipated to hold the largest revenue shares of the market and dominate the market segment in the upcoming five years due to increasing demands for the electric and hybrid vehicles all around the world. Increasing sales and thus the advancement in the hybrid cars substantiate the segmental growth.

Mitsubishi Electric Corporation, Fuji Electric Co., Ltd., Toshiba Corporation, Infineon Technologies AG, ON Semiconductor Corporation, STMicroelectronics International N.V., Texas Instruments Incorporated., Renesas Electronics Corporation, Vishay Intertechnology, Inc., NXP Semiconductors N.V. are among the major market players that lead the market growth of the global power electronics market.

Years considered for this report:

Historical Years: 2017- 2020

Base Year: 2021

Estimated Year: 2022E

Forecast Period: 2023F– 2027F

Objective of the Study:

To analyze the market size of global power electronics market from 2017 to 2021.

To estimate and forecast the market size of global power electronics market from 2022E to 2027F and growth rate until 2027.F

To classify and forecast global power electronics market based on device type, material, voltage, application, regional distribution, and competitive analysis.

To identify dominant region or segment in the global power electronics market.

To identify drivers and challenges for global power electronics market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in global power electronics market.

To identify and analyze the profile of leading players operating in global power electronics market.

To identify key sustainable strategies adopted by market players in global power electronics market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of manufacturers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the manufacturers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the manufacturers & service providers, distribution channels and presence of all major players across the globe.

TechSci Research calculated the market size of global power electronics market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these products and applications for getting an appropriate, overall

market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Manufacturers, suppliers, distributors and other stakeholders

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to power electronics

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as manufacturers, suppliers, partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, global power electronics market has been segmented into the following categories in addition to the industry trends which have also been listed below:

Power Electronics Market, By Device Type:

Power Discrete

Power Module

Power IC

Power Electronics Market, By Material:

Silicon

Silicon Carbide

Gallium Nitride

Others

Power Electronics Market, By Voltage:

Low Voltage

Medium Voltage

High Voltage

Power Electronics Market, By Application:

ICT

Consumer Electronics

Industrial

Automotive

Aerospace & Defense

Others

Power Electronics Market, By Region:

Asia-Pacific

China

Japan

India

South Korea

Europe

Germany

United Kingdom

France

Italy

Spain

Netherlands

North America

United States

Mexico

Canada

South America

Brazil

Colombia

Argentina

Middle East and Africa

United Arab Emirates

Saudi Arabia

South Africa

Competitive Landscape

Global Power Electronics Market, By Device Type (Power Discrete, Power Module and Power IC), By Material (Sili...

Company Profiles: Detailed analysis of the major companies present in global power electronics market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY

3. EXECUTIVE SUMMARY

4. IMPACT OF COVID-19 ON GLOBAL POWER ELECTRONICS MARKET

5. VOICE OF CUSTOMER

5.1. Brand Awareness

5.2. Key Factors for Selecting Power Electronics Vendor

5.3. Key Satisfaction Level

5.4. Key Challenges Faced

6. GLOBAL POWER ELECTRONICS MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Device Type (Power Discrete, Power Module and Power IC)

6.2.2. By Material (Silicon, Silicon Carbide, Gallium Nitride and Others)

6.2.3. By Voltage (Low Voltage, Medium Voltage, High Voltage)

6.2.4. By Application (ICT, Consumer Electronics, Industrial, Automotive, Aerospace & Defense, and Others)

6.2.5. By Region

6.2.6. By Company (2021)

6.3. Market Map (By Device Type, By Material, By Voltage, By Application, By Region)

7. ASIA-PACIFIC POWER ELECTRONICS MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Device Type

7.2.2. By Material

7.2.3. By Voltage

7.2.4. By Application

7.2.5. By Country

7.3. Asia-Pacific: Country Analysis

7.3.1. China Power Electronics Market Outlook

7.3.1.1. Market Size & Forecast

7.3.1.1.1. By Value

7.3.1.2. Market Share & Forecast

7.3.1.2.1. By Device Type

7.3.1.2.2. By Material

7.3.1.2.3. By Voltage

7.3.1.2.4. By Application

7.3.2. Japan Power Electronics Market Outlook

7.3.2.1. Market Size & Forecast

7.3.2.1.1. By Value

7.3.2.2. Market Share & Forecast

7.3.2.2.1. By Device Type

7.3.2.2.2. By Material

7.3.2.2.3. By Voltage

7.3.2.2.4. By Application

7.3.3. India Power Electronics Market Outlook

7.3.3.1. Market Size & Forecast

7.3.3.1.1. By Value

7.3.3.2. Market Share & Forecast

7.3.3.2.1. By Device Type

7.3.3.2.2. By Material

7.3.3.2.3. By Voltage

7.3.3.2.4. By Application

7.3.4. South Korea Power Electronics Market Outlook

7.3.4.1. Market Size & Forecast

7.3.4.1.1. By Value

7.3.4.2. Market Share & Forecast

7.3.4.2.1. By Device Type

7.3.4.2.2. By Material

7.3.4.2.3. By Voltage

7.3.4.2.4. By Application

I would like to order

Product name: Global Power Electronics Market, By Device Type (Power Discrete, Power Module and Power IC), By Material (Silicon, Silicon Carbide, Gallium Nitride and Others), By Voltage (Low Voltage, Medium Voltage, High Voltage), By Application (ICT, Consumer Electronics, Industrial, Automotive, Aerospace & Defense, and Others), By Region, Competition, Forecast & Opportunities, 2017-2027F

Product link: <https://marketpublishers.com/r/G4145997569BEN.html>

Price: US\$ 4,900.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/G4145997569BEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
