Abstracts

According to “Global Solar Mirror Market By Technology, By End User, By Region, Competition Forecast & Opportunities, 2013 – 2023” solar mirror market is projected to grow at a CAGR of 12.5% by 2023, owing to increasing emphasis on solar thermal installations across the globe. Moreover, growing demand for electricity would also aid the global solar mirror market, as solar mirrors are used extensively for power generation. Use of solar mirrors for mass cooking, agriculture and enhanced oil recovery are the other application areas, which would ensure the growth of solar mirror market, globally, during the forecast period. Further, emerging technologies such as self-orienting solar mirrors and aluminum-based reflecting material in solar mirrors are expected to further boost the demand for solar mirrors in the coming years. Some of the major players operating in global solar mirror market are FLABEG FE GmbH, Rioglass Solar Holding S.A., Compagnie de Saint-Gobain S.A., SkyFuel Inc., AGC Inc., Guardian Industries Corporation, Airlight Energy Manufacturing SA, Pilkington Plc., TG Yueda Solar Mirror Co., Ltd., Replex Mirror Company Inc., etc. “Global Solar Mirror Market By Technology, By End User, By Region, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of Solar Mirror market globally:

Solar Mirror Market Size, Share & Forecast

Segmental Analysis – By Technology (Parabolic Trough, Linear Fresnel, Power Tower & Dish/Engine System), By End User (Utilities, Industrial & Commercial), By Region

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of Solar Mirror in globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, Solar Mirror distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with Solar Mirror distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
