## **Abstracts**

India cleaning robots market is forecast to grow at a CAGR of more than 17% during the forecast period owing to increasing demand from residential & commercial sector and increasing disposable income. Cleaning robots are the robots driven by intelligent programming for multipurpose cleaning. Initially, they were designed for manual operation through a remote control as well as through self-driven mode, allowing them to clean autonomously without any human control. Growing working women population in metro cities is anticipated to aid cleaning robots market in India during the forecast period.

India cleaning robots market can be segmented based on the type, product type, application and region. Based on the type, the market is segmented into Personal Cleaning Robots and Professional Cleaning Robots, of which, professional cleaning robots segment is expected to be the fastest growing segment due to their high quality, larger bin size, ability to clean larger areas, etc. Based on the product type, the market can be segmented into Floor-Cleaning Robot, Pool-Cleaning Robot, Lawn-Cleaning Robot, Window-Cleaning Robot and Others. Floor cleaning robots segment is expected to be the largest product type owing to the growing popularity of floor cleaning robots in the residential segment.

Major players operating in India cleaning robots market include iRobot Corporation, Milagrow Business & Knowledge Solutions Private Limited, Anker Technology (UK) Ltd, ILIFE Innovation Ltd., and Robosys Innovations, among others.

Years considered for this report:

Historical Years: 2015-2019

Base Year: 2019

Estimated Year: 2020

Forecast Period: 2021–2025

Objective of the Study:

To analyze and forecast the market size of India cleaning robots market.

To classify and forecast India cleaning robots market based on type, data rate, application and regional distribution.

To identify drivers and challenges for India cleaning robots market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in India cleaning robots market.

To conduct the pricing analysis for India cleaning robots market.

To identify and analyze the profile of leading players operating in India cleaning robots market.

Some of the leading players in India cleaning robots market include iRobot Corporation, Milagrow Business & Knowledge Solutions Private Limited, Anker Technology (UK) Ltd, ILIFE Innovation Ltd., Robosys Innovations, etc.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of major players operating

across the country. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the companies which could not be identified due to the limitations of secondary research. TechSci Research analyzed the service offerings, distribution channels and presence of all major service providers across the country.

TechSci Research calculated the market size of India cleaning robots market using a bottom-up approach, wherein data for various type was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

#### Key Target Audience:

Cleaning robot original equipment manufacturers

Robot designers and suppliers

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to cleaning robots

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as service providers and partners, applications, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

#### Report Scope:

In this report, India Cleaning Robots market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Market, By Type:

Personal Cleaning Robot

Professional Cleaning Robot

Market, By Product Type:

Floor-Cleaning Robot

Pool-Cleaning Robot

Lawn-Cleaning Robot
