Abstracts

According to “India Construction Chemicals Market By Type, By End Use, Competition Forecast & Opportunities, 2013-2023” construction chemicals market is projected to exhibit a CAGR of over 15% by 2023. Growth in the market can be attributed to increasing construction of residential houses and commercial complexes across the country. Moreover, there is growing investment in the country’s infrastructure projects by the government as well as private companies. Additionally, government regulations pertaining to the use of construction chemicals with low VOC, especially in Green Building Concept based construction projects, would further propel demand for quality construction chemicals in the coming years. India construction chemicals market is controlled by major players, namely Pidilite Industries Ltd, Sika India Private Limited, BASF India Limited, Fosroc Chemicals (India) Pvt. Limited, Chembond Chemicals Limited, Dow Chemical International Pvt Ltd, Mapei Construction Products India Pvt Ltd., W. R. Grace & Co. India Pvt. Limited, CHYRSO India Pvt. Ltd., and CICO Technologies Limited. “India Construction Chemicals Market By Type, By End Use, Competition Forecast & Opportunities, 2013-2023” discusses the following aspects of construction chemicals market in India:

Construction Chemicals Market Size, Share & Forecast

Segmental Analysis – By Type (Concrete Admixtures, Waterproofing Chemicals, Flooring Compounds, Repair & Rehabilitation, and Others), By End Use (Infrastructure and Real Estate)

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of construction chemicals market in India

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, construction chemicals distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with construction chemicals distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
