Abstracts

India HDMI Cables Market is forecast to arrive at USD281.45 million by FY2026 growing at a CAGR of over 5.23% from FY2021-FY2026, owing to the rapid technological advancements and the growing need for high-resolution audio-video telecommunication mediums. Improvement in HDMI cables for better bandwidth applications linked to the display technology with the enhancement of multimedia and entertainment industry in evolving economies provide profitable opportunities for the market in India. The consumers are progressively using diverse electronic goods, for example, televisions, automotive systems, computers, etc. along with the increase in the demand for in-house manufacturing of local brands after the government's ban on China during the COVID-19 pandemic is straightforwardly pushing the demand of the market over the coming years in India.

HDMI Cables Market in India can be segmented based on the type, grade, applications and region. Based on the region, the market can be segmented into North India, West India, South India and East India. North India leads the overall market owing to its rising demand for diverse categories of consumer electronics products along with the expansion in urbanization in the region, followed by West India market for HDMI cables. Moreover, increasing demand for HDMI cables in new technology televisions, DVD players, personal computers, gaming consoles and automotive systems is predicted to drive the demand for HDMI cables during the forecasted period.

Historical Years: FY2016-FY2019

Base Year: FY2020

Estimated Year: FY2021

Forecast Period: FY2022-FY2026

Objective of the Study:

To analyze the historical growth in the market size of the India HDMI Cables Market from FY2016 to FY2020.

To estimate and forecast the market size of the India HDMI Cables Market from FY2021 to FY2026 and growth rate until FY2026.

To classify and forecast India HDMI Cables Market based on type, grade, application, company and regional distribution.

To analyze and forecast the market size, in terms of type which are Passive (Standard) and Active (High-Speed) HDMI cables.

To analyze and forecast the market size, in terms of grade which are HDMI 1.4, HDMI 2.0 and HDMI 2.1 cables and the HDMI 2.1 cables.

To analyze and forecast the market size, in terms of application which are Television & DVD Players, Personal Computers & Tablets, Gaming consoles, Automotive systems, Mobile phones, etc.

To analyze and forecast the market size, in terms of region which are North India, West India, South India and East India.

To identify drivers, challenges and trends for India HDMI Cables Market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in India HDMI Cables Market.

To conduct pricing analysis for India HDMI Cables Market.

To identify and analyze the profile of leading manufacturers in India HDMI Cables Market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of HDMI cable manufacturers across India. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research was able to include the manufacturers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the product offerings, distribution channels and presence of all major manufacturers across the country.

TechSci Research calculated India HDMI Cables Market size using a top-down approach, where data for various applications across various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size.
