Abstracts

India kitchen hoods market value in the year 2021 was USD193.75 million, which is anticipated to grow with a CAGR of 10.57% during the forecast period, 2023-2027, to achieve a market value of USD347.98 million by 2027F. The market growth can be attributed to growing construction and remodeling demand by the consumers toward modular kitchens. Growing demands for chimneys and a clean environment in the kitchen further drive the growth of the India kitchen hoods market in the upcoming five years. Rising disposable income, higher purchasing power among the population, product innovation, and technological improvements further supports the growth of the India kitchen hoods market in the next five years. Growing number of market players along with the consistent research and innovative product development to satisfy the growing demands of the consumers, further substantiates the growth of the India kitchen hoods market in the future five years. Growing concerns toward proper ventilation in the kitchen also aid the growth of the India kitchen hoods market, along with the demand for modular kitchens and aesthetic looks for home décor.

The India kitchen hoods market is segmented by product type, suction power,

distribution channel, competitive landscape and regional distribution. Based on product type, the market is further segmented into wall mount, ceiling mount/ island, under cabinet, and others like downdraft, hanging, built-in, etc. Wall mount kitchen hoods are anticipated to dominate the market segment in the upcoming five years and hold the largest revenue shares of the market on account of increasing demands for modular kitchens. A surge in the construction and remodeling of the modular kitchen further supports the growth of the India kitchen hoods market in the next five years.
