Abstracts

According to “India LED Lighting Market By Type, By End Use Sector, By Application, Competition Forecast & Opportunities, 2012–2022”, India LED lighting market is projected to grow at a CAGR of 24.66%, in value terms, during 2016-2022, on account of increasing government initiatives to boost LED adoption and growing awareness regarding lower power consumption of LED lighting products. Moreover, easy availability at affordable prices coupled with distribution of LED bulbs by Indian government at subsidized rates to promote the use of LED lights over halogens and incandescent lighting products is augmenting demand for LEDs in the country. Few of the major players operating in India LED lighting market include Philips India Ltd., Surya Roshni Ltd., Harvell’s India Limited, Shree Sant Kripa Appliances Pvt. Ltd, OSRAM India Private Limited, Crompton Greaves Consumer Electricals LTD, Halonix Technologies Limited, Panasonic India, GE Lighting India Pvt. Ltd., Bajaj Electricals Limited, etc. “India LED Lighting Market By Type, By End Use Sector, By Application, Competition Forecast & Opportunities, 2012–2022”, discusses the following aspects of LED lighting market in India:

LED Lighting Market Size, Share & Forecast

Segmental Analysis – By Type (LED Bulbs & Lamps, Batten Lights, Downlights, Spotlights and Others), By Application (Outdoor Lighting, Indoor Lighting, Automotive Lighting and Others), By End Use Sector (Commercial, Residential, Institutional and Industrial), By Geography

Pricing & Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of LED lighting market in India

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, LED lighting manufacturers, distributors and other stakeholders align their market-centric strategies

To obtain research based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with LED lighting manufacturers, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
