Abstracts

India medical loupes market is anticipated to grow with an estimated CAGR in the forecast years FY2023-FY2027, on the grounds of increasing investments in the healthcare industry. Growing research in the technological advancement in various medical devices along with surging demand for highly efficient surgical procedures are consistently driving the growth of the India medical loupes market in the upcoming five years. The higher prevalence of complicated and complex surgeries as a treatment for organ transplants, cancer cell removal, etc. is further aiding the growth of the India medical loupes market in the future five years.

Small monocular or binocular magnifying lenses that are often worn during surgical procedures by surgeons to provide enhanced vision such that complicated and complex surgeries can be conducted are known as medical loupes. The lens is usually set in an eyepiece or head frame that provides a highly defined vision for examination as well as surgical procedures.

Chronic Diseases & Surgical Ventures Drive Market Growth

India Medical Loupes Market By Type (Flip-Up Loupes, Through-The-Lens (TTL) Loupes, Clip-On Loupes, Headband M...

The increasing prevalence of chronic diseases like cardiovascular diseases, neurological diseases, cancer, etc. is driving the growth of the India medical loupes market in the upcoming five years. Demand for minimally invasive surgeries as the treatment for the increasing cases of chronic diseases is actively aiding the market growth. In the year 2019, 17.9 million deaths were registered due to cardiovascular diseases alone in India. The number represented 31% of the total global deaths due to cardiovascular diseases.

Moreover, surgical approaches for various treatments like cataracts, Caesareans, orthopedic surgeries, hernia treatments, etc. are increasing rapidly. An increasing number of expert surgeons and experienced consultants for the diagnosis, surgeries, and consultation during surgeries for complicated procedures are also aiding the growth of the India medical loupes market in the next five years.

Technological Advancements Support Market Growth

Growing adoption of modern technologies and increasing research for innovative product development are also substantiating the growth of the India medical loupes market in the next five years. The involvement of technology like a camera to record the procedures, or live feed display through internet-based services with multiple experts for guidance during a complicated procedure support the market growth. These advancements improve the success rates of surgeries.

The market players are also focused on decreasing the weight of the loupes for the comfort of surgeons and medical experts so that adaptability toward the medical device could be increased, thus aiding the growth of the India medical loupes market in the future five years.

Market Segmentation

The India medical loupes market segmentation is based on type, lens type, distribution channel, application, end user, source, regional distribution, top 3 state analysis, and competition landscape. Based on type, the market is further segmented into flip-up loupes, through-the-lens (TTL) loupes, clip-on loupes, and headband mounted. By lens type, the market is divided between Galilean and prismatic. Based on the distribution channel, the market is differentiated between offline and online. By application, the market is bifurcated into surgical, dental, and others. Based on the end user, the market is defined as hospitals, dental clinics, ambulatory surgery centers, and others. Based on

the source, the market is differentiated between domestic and imported. The India medical loupes market analysis also studies the regional segmentation divided among the North India region, South India region, East India region, and West India region. The regional market is further analyzed through the top 3 state market shares.

Company Profile

Carl Zeiss India Pvt Ltd, Heine Optotechnik India, Keeler India, Neitz Instruments India, Univet India, ErgonoptiX India, and Zumax India, are some of the major market players in the country that lead the market growth analysis.

Report Scope:

In this report, India medical loupes market is segmented into the following categories, in addition to the industry trends which have also been detailed below:

India Medical Loupes Market, By Type:

Flip-Up Loupes

Through-The-Lens (TTL) Loupes

Clip-On Loupes

Headband Mounted

India Medical Loupes Market, By Lens Type:

Galilean

Prismatic

India Medical Loupes Market, By Distribution Channel:

Offline

Online

India Medical Loupes Market, By Application:

Surgical

Dental

Others

India Medical Loupes Market, By End User:

Hospitals

Dental Clinics

Ambulatory Surgery Centers

Others

India Medical Loupes Market, By Source:

Domestic

Import

India Medical Loupes Market, By Region:

South

West

North

East

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in India medical loupes market.
