## Abstracts

India Methanol market demand stood at 2.26 Million Tonnes in FY2021 and is forecast to reach 4.01 Million Tonnes by FY2030, growing at a healthy CAGR of 6.59% until FY2030. Demand for Methanol in India is expected to grow notably, driven by its large-scale consumption to produce Formaldehyde, which is widely required in the flexible packaging sector. Moreover, the rising requirement for Methanol in niche pharmaceutical applications is also likely to serve well to surge the demand in the forecast period. The outbreak of COVID-19 disrupted the economy. The market growth was affected drastically, and production units shut down. Furthermore, the major market players intentionally halted the production keeping their employees' health and wellness in mind. With imposed new regulations of the COVID-19 and proper precautions, the market is anticipated to regain its growth in the years to come. Once the market regains the full function of its production unit, the market is bound to show robust growth in the forecast period. Potential investment in the market is expecting steady growth in the market in the forecast period, until FY2030.

#### Deliverables

**Installed Capacity By Company:** Installed capacity within the country along with the individual capacity of leading players

**Installed Capacity By Location:** Installed capacity at several locations across the country

**Installed Capacity By Process:** Installed capacity by different processes

**Installed Capacity By Technology:** Installed capacity by different technologies being used to produce Methanol

**Production By Company:** Actual production done by different companies

**Operating Efficiency By Company:** Operating efficiency at which different companies are operating their plants

**Demand By End Use:** Demand/Sale of Methanol in different end user industries across the country

**Demand By Sales Channel:** Demand/Sale of Methanol by different sales channels across the country

**Demand By Region:** Demand/Sale of Methanol in different regions of the country

Country-Wise Exports: Exports of Methanol by Different Countries

Country-Wise Imports: Imports of Methanol by Different Countries

Demand & Supply Gap: Demand & Supply Gap at country level

Market Share of Leading Players: Revenue shares of leading players in the country

News & Deals: Historical & Current News & Deals in the Methanol market

To extract data for the India Methanol market, the ChemAnalyst team conducts primary research surveys with Methanol manufacturers, suppliers, distributors, wholesalers, and customers followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys.
