Abstracts

India phosphatic fertilizers market is forecast to reach \$ 5.6 billion by 2026 on the back of increasing demand for food due to continuing rise in the country's population. Further, decreasing arable land is propelling demand for phosphatic fertilizers as they aid in increasing the yield. Owing to less availability of rock phosphate, India is majorly importing a large amount of it from various countries. Morocco is the major supplier of rock phosphate to India. Indian Farmers Fertilizer Cooperative, Indian Potash Limited, Chambal Fertilizers and Chemicals Limited, Gujarat State Fertilizers and Chemicals Limited, Paradeep Phosphate Limited, Coromandel International Limited, The Mosaic Company, Krishak Bharti Cooperative, Khaitan Chemicals And Fertilizers Limited, and Greenstar Fertilizers Limited are some of the leading players.
