Abstracts

Market Overview

The India Smartphone Market was valued at USD 54.67 Billion in 2024 and is projected to reach USD 78.89 Billion by 2030, growing at a CAGR of 8.23% during the forecast period. The market is experiencing rapid growth due to several converging factors, including increasing internet accessibility, urbanization, and the growing affordability of smartphones. Affordable mobile data plans and the availability of feature-rich yet budget-friendly devices from both domestic and global brands have broadened smartphone penetration, particularly in rural and semi-urban areas. Government initiatives such as Digital India are playing a vital role in encouraging digital adoption. Simultaneously, the rise of mobile-based services across education, healthcare, digital payments, and e-commerce is increasing dependency on smartphones in everyday life. As consumers seek upgraded devices to meet their evolving digital needs, India's vibrant ecosystem positions the country as one of the fastest-expanding smartphone markets globally.

Key Market Drivers

Rising Internet Penetration Across the Region

The increasing internet penetration across India is a major driver accelerating the

growth of the smartphone market. According to the Internet and Mobile Association of India (IAMAI), the country's internet user base is projected to exceed 900 million by 2025, largely fueled by the growing consumption of digital content in Indic languages. Government programs like Digital India and significant investments in telecom infrastructure have expanded internet access to rural and remote regions. Affordable 4G data plans from major telecom providers have also reduced the cost of internet access, promoting smartphone use among a broader population. The surge in mobile-based activities—ranging from online learning and banking to social networking and video streaming—is boosting the demand for internet-enabled, high-performing smartphones. As new users go online, the market for accessible, reliable smartphones continues to grow, reinforcing the central role of connectivity in shaping India's digital transformation.

Key Market Challenges

Supply Chain Disruptions

Supply chain disruptions pose a considerable challenge to the India smartphone market, impacting both product availability and pricing. The industry depends heavily on imported components like semiconductors, displays, and batteries from countries such as China, Taiwan, and South Korea. Global disruptions stemming from the COVID-19 pandemic, geopolitical tensions, and semiconductor shortages have highlighted these dependencies, causing production delays and cost increases. These challenges result in limited availability, especially for high-demand budget models, and delay product launches. In addition, logistics issues, including rising freight charges and port congestion, further strain the supply chain. Smaller brands are particularly vulnerable due to weaker procurement capabilities and limited inventory buffers. Although the Indian government is promoting domestic production through initiatives like 'Make in India,' local manufacturing capabilities are still evolving. Until the domestic supply chain matures, the industry remains sensitive to global disruptions, impacting consistent growth and market stability.

Key Market Trends

Offline Retail Expansion

A prominent trend in the India smartphone market is the growing emphasis on offline retail expansion. As of 2022, offline retail sales in India surpassed USD 1.6 trillion, highlighting the importance of physical retail in consumer purchasing behavior.

Consumers, especially in the premium segment, prefer to physically evaluate smartphones before making purchase decisions. In response, brands like Vivo and Realme are strengthening their offline presence through exclusive brand outlets and wider distributor networks. This approach provides customers with hands-on experiences, personalized service, and immediate access to new products. The offline model also facilitates stronger customer engagement and trust, particularly in Tier II and Tier III cities. With brands investing in retail infrastructure and customer service, offline channels are becoming a vital strategy to enhance brand visibility and expand market reach across diverse geographies.

Key Market Players

Realme Mobile Telecommunications Co., Ltd

Oppo Mobiles India Private Limited

Nokia Corporation

G-Mobile Devices Pvt. Ltd

Motorola Mobility LLC

Sony India

OnePlus Technology India Pvt. Ltd

ASUSTeK Computer Inc

Samsung Electronics Co., Ltd

Apple Inc

Report Scope:

In this report, the India Smartphone Market has been segmented into the following categories, in addition to the industry trends which have also been detailed below:

India Smartphone Market, By Operating System:

India Smartphone Market By Operating System (Android, iOS, Others), By Display Technology (LCD, OLED, AMOLED,...

Android

iOS

Others

India Smartphone Market, By Display Technology:

LCD

OLED

AMOLED

Others

India Smartphone Market, By Distribution Channel:

Multi-Brand Store

Exclusive Store

Online

Others

India Smartphone Market, By Region:

North

South

East

West

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in the India Smartphone Market.

Available Customizations:

India Smartphone Market report with the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. INTRODUCTION

- 1.1. Product Overview
- 1.2. Key Highlights of the Report
- 1.3. Market Coverage
- 1.4. Market Segments Covered
- 1.5. Research Tenure Considered

2. RESEARCH METHODOLOGY

- 2.1. Methodology Landscape
- 2.2. Objective of the Study
- 2.3. Baseline Methodology
- 2.4. Formulation of the Scope
- 2.5. Assumptions and Limitations
- 2.6. Sources of Research
- 2.7. Approach for the Market Study
- 2.8. Methodology Followed for Calculation of Market Size & Market Shares
- 2.9. Forecasting Methodology

3. EXECUTIVE SUMMARY

- 3.1. Overview of the Market
- 3.2. Overview of Key Market Segmentations
- 3.3. Overview of Key Market Players
- 3.4. Overview of Key Regions
- 3.5. Overview of Market Drivers, Challenges, and Trends

4. VOICE OF CUSTOMER

- 4.1. Brand Awareness
- 4.2. Factor Influencing Availing Decision

5. INDIA SMARTPHONE MARKET OUTLOOK

- 5.1. Market Size & Forecast
 - 5.1.1. By Value

5.2. Market Share & Forecast

5.2.1. By Operating System (Android, iOS, Others)

5.2.2. By Display Technology (LCD, OLED, AMOLED, Others)

5.2.3. By Distribution Channel (Multi-Brand Store, Exclusive Store, Online, Others)

5.2.4. By Region

5.2.5. By Company (2024)

5.3. Market Map

6. INDIA ANDROID SMARTPHONE MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Display Technology

6.2.2. By Distribution Channel

7. INDIA IOS SMARTPHONE MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Display Technology

7.2.2. By Distribution Channel

8. MARKET DYNAMICS

8.1. Drivers

8.2. Challenges

9. MARKET TRENDS & DEVELOPMENTS

9.1. Merger & Acquisition (If Any)

9.2. Product Launches (If Any)

9.3. Recent Developments

10. PORTERS FIVE FORCES ANALYSIS

10.1. Competition in the Industry

10.2. Potential of New Entrants

- 10.3. Power of Suppliers
- 10.4. Power of Customers
- 10.5. Threat of Substitute Products

11. INDIA ECONOMIC PROFILE

12. POLICY & REGULATORY LANDSCAPE

13. COMPETITIVE LANDSCAPE

- 13.1. Company Profiles
 - 13.1.1. Realme Mobile Telecommunications Co., Ltd
 - 13.1.1.1. Business Overview
 - 13.1.1.2. Company Snapshot
 - 13.1.1.3. Products & Services
 - 13.1.1.4. Financials (As Per Availability)
 - 13.1.1.5. Key Market Focus & Geographical Presence
 - 13.1.1.6. Recent Developments
 - 13.1.1.7. Key Management Personnel
 - 13.1.2. Oppo Mobiles India Private Limited
 - 13.1.3. Nokia Corporation
 - 13.1.4. G-Mobile Devices Pvt. Ltd
 - 13.1.5. Motorola Mobility LLC
 - 13.1.6. Sony India
 - 13.1.7. OnePlus Technology India Pvt. Ltd
 - 13.1.8. ASUSTeK Computer Inc
 - 13.1.9. Samsung Electronics Co., Ltd
 - 13.1.10. Apple Inc

14. STRATEGIC RECOMMENDATIONS

15. ABOUT US & DISCLAIMER

I would like to order

Product name: India Smartphone Market By Operating System (Android, iOS, Others), By Display Technology (LCD, OLED, AMOLED, Others), By Distribution Channel (Multi-Brand Store, Exclusive Store, Online, Others), By Region, Competition, Forecast & Opportunities, 2020-2030F
