Abstracts

India specialty gases market is projected to grow at a CAGR of over 12%, in value terms, for 2017-2026, on back of growing demand for specialty gases being generated from various end user industries. India is one the largest producers of steel and sponge iron owing to which metal and mining industry dominated the specialty gases market in India. Also, regular capacity expansions by automobile, refinery and chemical industries and increasing number of new applications of specialty gases from different regions is augmenting demand for specialty gases in the country. Indian healthcare industry is also adding capacity due to the rising population, given that the prevalent infrastructure is not adequate to tackle the growing number of patients. Addition of hospitals will also add to the growing demand for specialty gases market in India through 2026.

According to “India Specialty Gases Market By Type, By Application, By Distribution, Competition Forecast and Opportunities, 2012-2026”, the market for specialty gases in India is dominated by these players: Praxair India Private Limited, Linde India Limited, INOX Air Products, Air Liquide India, Taiyo Nippon Sanso K-Air India Private Limited, Bhuruka Gases Limited, Goyal MG Gases Pvt. Ltd., Air Water (Ellenbarrie Industrial Gases Limited), Bombay Oxygen Corporation, The Southern Gas Ltd, etc. “India Specialty Gases Market By Type, By Application, By Distribution, Competition Forecast and Opportunities, 2012-2026” discusses the following aspects of specialty gases market in India:

Specialty Gases Market Size & Share Forecast

Segmental Analysis – By Type (Noble Gases, High Purity Gases, Hydrocarbon Gases, Halogen Gases, and Others), By Application (Energy & Power, Metal & Mining, Healthcare, etc.), By Distribution (Packaged and Bulk)

Policy and Regulatory Landscape

Changing Market Trends & Emerging Opportunities

Competitive Landscape & Strategic Recommendations

Why You Should Buy This Report?

To gain an in-depth understanding of specialty gases market in India.

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants and specialty gas suppliers align their market-centric strategies

To obtain research based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with specialty gases manufacturers and distributors. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY
