Abstracts

According to “India Textile Chemicals Market By Type, By Process Type, By Textile Type, By Sales Channel, By End Use, Competition, Forecast & Opportunities, 2013 – 2023” textile chemicals market stood at \$ 1.5 billion in 2017 and is projected to grow at a CAGR of around 10% to reach \$ 2.6 billion by 2023, on the back of growing demand for high-quality finished textile products. Stringent environmental regulations imposed in China against pollution have forced several Chinese textile dye manufacturers to discontinue their operations, thereby resulting in opportunities for Indian players to further penetrate the international market. India is the second largest textile exporter in the world and the state government of Maharashtra is taking initiatives to establish around nine textile parks, which is expected to encourage domestic textile manufacturing, which in turn is anticipated to spur the demand for textile chemicals in India in coming years. Some of the major players operating in India textile chemicals market are Bodal Chemicals Ltd., Kiri Industries Ltd., Archroma India Pvt. Ltd., Croda India Company Pvt. Ltd., Huntsman International (India) Pvt. Ltd., Jaysynth Dyestuff (India) Ltd., CHT India Pvt. Ltd., Rossari Biotech Ltd., Indofil Industries Ltd. and Fibro Organic (India) Pvt. Ltd. “India Textile Chemicals Market By Type, By Process Type, By Textile Type, By Sales Channel, By End Use, Competition, Forecast & Opportunities, 2013 – 2023” discusses the following aspects of Textile Chemicals market in India:

Textile Chemicals Market Size, Share & Forecast

Segmental Analysis – By Type (Colorants Vs Auxiliaries), By Process Type

(Dyeing & Printing, Pre-treatment and Finishing), By Textile Type, By Sales Channel, By End Use

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of Textile Chemicals in India

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, Textile Chemicals distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with Textile Chemicals distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
