Abstracts

India tomato fever therapeutics market may register growth during the forecast period, 2024-2028, on the backbone of increasing instances of the disease among the population of the country. A sudden increase in cases along with the demand for symptomatic control over the diseases and related pharmaceutical drives the growth of the India tomato fever therapeutics market in the upcoming five years. The increasing threat of infectious diseases and the recent outbreak of COVID-19 causing the pandemic is also influencing the population to look for effective drugs and therapeutics to control the infection also support the growth of the India tomato fever therapeutics market in the next five years.

Growing Instances Drive Market Growth

Rapidly increasing instances of tomato fever is the major factor driving the growth of the India tomato fever therapeutics market in the upcoming five years. A surge in the number of cases is majorly from the southern region of the country. Indian state as in Kerala has encountered multiple cases in the last few weeks. Other neighboring states like Tamil Nadu, Karnataka, and Andhra Pradesh are on high alert against the diseases. Precautionary steps are taken to modulate the increasing cases. Every person crossing the borders with Kerala is being tested to identify the potent carriers of the infection and

infected to control the spread of infection in rest of the country.

82 cases in the state of Kerala have been identified as per the latest records and more diagnostic tests are being conducted. The infection emerges from the Shigella bacterium and is often transferred through food or unhygienic water. Although complete causes for the infectious diseases are not yet determined. Cities like Kollam, Neduvathur, Anchal, and Aryankavu in the state of Kerala have by far shown a significant increase in the number of cases. Government-run food and childcare centers and Anganwadi centers have been temporarily restricted from functioning. The step is to control the further increase of tomato fever cases. The disease is widespread among children younger than 5 years old.

Demands For Symptomatic Relief Fuels Market Growth

Tomato fever is a comparatively new infection and the medicines to control the infection or to cure the disease have not yet been formularized. Before commercializing the medicines and other therapeutics specific to the disease, the approvals and clinical trials would take a long time. In such circumstances, the demand for symptomatic relief increases and thus aids the growth of the India tomato fever therapeutics market in the future five years. The symptoms include tomato-sized rashes (thus the name of the disease), skin irritation, dehydration to the patient, and in certain cases, worms from the boils have also been reported.

Surging demands for anti-inflammatory drugs and pain relievers are actively driving the growth of the India tomato fever therapeutics market in the next five years. Symptomatic control is necessary for the relief of the patient, moreover, the experts announce that the infection is currently self-limiting, and the symptoms usually resolve with time and care. Maintenance of hygienic conditions like sanitizing personal belongings maintaining distance from the infected and not using the stuff without sanitization would help in controlling the spread of the infection among other populations.

Market Segmentation

The India tomato fever therapeutics market segmentation is based on drug type, route of administration, distribution channel, regional distribution, and competitive landscape. Based on drug type, the market is further segmented into pain relievers, non-steroidal anti-inflammatory drugs, and nucleoside analog antivirals. By route of administration, topical, oral, and intravenous. Based on distribution channels, the market is bifurcated into hospital pharmacies, retail pharmacies, and online pharmacies.

The India tomato fever therapeutics market analysis also studies the regional segmentation divided among North India region, South India region, East India region, and West India region. Each region in the country is further analyzed for the top 3 states of the market.

Company Profile

Johnson & Johnson India Limited, GlaxoSmithKline Pharmaceuticals Ltd., Takeda Pharmaceuticals India Pvt. Ltd., Emergex Vaccines Holding Ltd., and CJ HealthCare Corp., are some of the major market players in the country that lead the market growth analysis.

Report Scope:

In this report, India tomato fever therapeutics market is segmented into the following categories, in addition to the industry trends which have also been detailed below:

India Tomato Fever Therapeutics Market, By Drug Type:

Pain Relievers

Non-Steroidal Anti-inflammatory Drugs

Nucleoside Analogue Antivirals

India Tomato Fever Therapeutics Market, By Route of Administration:

Topical

Oral

Intravenous

India Tomato Fever Therapeutics Market, By Distribution Channel:

Hospital Pharmacies

Retail Pharmacies

Online Pharmacies

India Tomato Fever Therapeutics Market, By Region:

South

West

North

East

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in India tomato fever therapeutics market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY

3. IMPACT OF COVID-19 ON INDIA TOMATO FEVER THERAPEUTICS MARKET

4. EXECUTIVE SUMMARY

5. VOICE OF CUSTOMERS

6. INDIA TOMATO FEVER THERAPEUTICS MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Drug Type (Pain Relievers, Non-Steroidal Anti-inflammatory Drugs, Nucleoside Analogue Antivirals)

6.2.2. By Route of Administration (Topical, Oral, Intravenous)

6.2.3. By Distribution Channel (Hospital Pharmacies, Retail Pharmacies, Online Pharmacies)

6.2.4. By Region

6.2.4.1. By State (Top 3 States)

6.2.5. By Company (2022)

6.3. Product Market Map

7. SOUTH INDIA TOMATO FEVER THERAPEUTICS MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Drug Type

7.2.2. By Route of Administration

7.2.3. By Distribution Channel

8. WEST INDIA TOMATO FEVER THERAPEUTICS MARKET OUTLOOK

8.1. Market Size & Forecast

- 8.1.1. By Value
- 8.2. Market Share & Forecast
 - 8.2.1. By Drug Type
 - 8.2.2. By Route of Administration
 - 8.2.3. By Distribution Channel

9. NORTH INDIA TOMATO FEVER THERAPEUTICS MARKET OUTLOOK

- 9.1. Market Size & Forecast
 - 9.1.1. By Value
- 9.2. Market Share & Forecast
 - 9.2.1. By Drug Type
 - 9.2.2. By Route of Administration
 - 9.2.3. By Distribution Channel

10. EAST INDIA TOMATO FEVER THERAPEUTICS MARKET OUTLOOK

- 10.1. Market Size & Forecast
 - 10.1.1. By Value
- 10.2. Market Share & Forecast
 - 10.2.1. By Drug Type
 - 10.2.2. By Route of Administration
 - 10.2.3. By Distribution Channel

11. MARKET DYNAMICS

- 11.1. Drivers
- 11.2. Challenges

12. MARKET TRENDS & DEVELOPMENTS

13. POLICY & REGULATORY LANDSCAPE

14. INDIA ECONOMIC PROFILE

15. COMPETITIVE LANDSCAPE

- 15.1. Johnson & Johnson India Limited
- 15.2. GlaxoSmithKline Pharmaceuticals Ltd

- 15.3. Takeda Pharmaceuticals India Pvt. Ltd
- 15.4. Emergex Vaccines Holding Ltd
- 15.5. CJ HealthCare Corp.

16. STRATEGIC RECOMMENDATIONS

I would like to order

Product name: India Tomato Fever Therapeutics Market, By Drug Type (Pain Relievers, Non-Steroidal Anti-inflammatory Drugs, Nucleoside Analogue Antivirals), By Route of Administration (Topical, Oral, Intravenous), By Distribution Channel (Hospital Pharmacies, Retail Pharmacies, Online Pharmacies), By Region (Top 3 States), Competition Forecast & Opportunities, 2028
