Abstracts

India wired broadband market is projected to grow from around \$ 200 million in 2019 to \$ 243 million by 2024. Currently, penetration of wired broadband in the country is very low, which presents an opportunity for the wired broadband companies to expand their presence across the country. According to Telecom Regulatory Authority of India (TRAI), as of March 2019, there were 18.42 million wired broadband subscribers in India compared with around 545 million wireless broadband subscribers. India broadband market is anticipated to move towards bundled plans offering unlimited calling, cable TV and OTT. Increasing applications of ICT services, low transaction costs and increasing connectivity are further expected to drive the market. Also, the central government has issued Right of Way (RoW) model pertaining to broadband service expansion, which provides a right to the telecom providers to lay down their telecom infrastructure in the country. As a part of BharatNet project, the government of India also planned to connect 250,000 gram panchayats with broadband, which is expected to be completed by 2023. As of now, the government has successfully laid optical fiber in 100,000 gram panchayats, which is further positively influencing the market.

Wired broadband market in India can be segmented based on type, speed, application and region. Based on type, the market can be segmented into digital subscriber line (DSL), coaxial cable and fiber to the home (DSL). Digital subscriber line dominated the

India Wired Broadband market in 2018 with a market share of over 65% owing to the fact that digital subscriber line (DSL) uses traditional copper wire telephone line and provides high bandwidth digital data to multiple locations without much changes in existing telecommunication infrastructure. This is followed by coaxial cable and fiber to the home segments.

The companies operating in India wired broadband market include Atria Convergence Technologies Ltd (ACT), Bharat Sanchar Nigam Limited, Bharti Airtel Limited, Mahanagar Telephone Nigam Limited, Hathway Cable & Datacom Limited (Hathway), Excitel Broadband, You Broadband, Nextra, among others.

Years considered for this report:

Historical Years: 2014-2017

Base Year: 2018

Estimated Year: 2019

Forecast Period: 2020–2024

Objective of the Study:

To analyze and forecast the market size of India wired broadband market.

To classify and forecast India wired broadband market based on type, speed, application, and regional distribution.

To identify drivers and challenges for India wired broadband market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in India wired broadband market.

To identify and analyze the profile of leading players operating in India wired broadband market.

TechSci Research performed both primary as well as exhaustive secondary research

India Wired Broadband Market, By Type (Digital Subscriber Line (DSL); Coaxial Cable; Fiber to the Home (FTTH))...

for this study. Initially, TechSci Research sourced a list of companies across the country. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the companies which could not be identified due to the limitations of secondary research.

TechSci Research calculated the market size of India wired broadband market by using a bottom-up approach, where data for various application segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Wired broadband companies and other stakeholders

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to wired broadband market

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as service providers and partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, India wired broadband market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Market, By Type:

Digital Subscriber Line (DSL)

Coaxial Cable

Fiber to the Home (FTTH)

Market, By Speed:

Upto 1 Mbps

2-8 Mbps

9-40 Mbps

40-100 Mbps

Above 100 Mbps

Market, By Application:

Residential

Commercial

Industrial

Market, By Region:

North

South

West

East

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in India wired

India Wired Broadband Market, By Type (Digital Subscriber Line (DSL); Coaxial Cable; Fiber to the Home (FTTH))...

broadband market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY

3. EXECUTIVE SUMMARY

4. VOICE OF CUSTOMER

4.1. Challenges while adopting the wired broadband system

4.2. Benefits of a wired broadband system

4.3. How much are you willing to spend on a wired broadband system?

4.4. For what applications are you willing to install wired broadband systems

5. INDIA WIRED BROADBAND MARKET OUTLOOK

5.1. Market Size & Forecast

5.1.1. By Value

5.2. Market Share & Forecast

5.2.1. By Type (Digital Subscriber Line (DSL); Coaxial Cable; Fiber to the Home (FTTH))

5.2.2. By Speed (Up to 1 Mbps; 2-8 Mbps; 9-40 Mbps; 40-100 Mbps; Above 100 Mbps)

5.2.3. By Application (Residential; Commercial; Industrial)

5.2.4. By Region

5.2.5. By Company (2018)

5.3. Market Map

5.3.1. By Type

5.3.2. By Speed

5.3.3. By Region

6. NORTH INDIA WIRED BROADBAND MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Type

6.2.2. By Speed

7. SOUTH INDIA WIRED BROADBAND MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Type

7.2.2. By Speed

8. WEST INDIA WIRED BROADBAND MARKET OUTLOOK

8.1. Market Size & Forecast

8.1.1. By Value

8.2. Market Share & Forecast

8.2.1. By Type

8.2.2. By Speed

9. EAST INDIA WIRED BROADBAND MARKET OUTLOOK

9.1. Market Size & Forecast

9.1.1. By Value

9.2. Market Share & Forecast

9.2.1. By Type

9.2.2. By Speed

10. MARKET DYNAMICS

10.1. Drivers

10.2. Challenges

11. MARKET TRENDS & DEVELOPMENTS

12. POLICY AND REGULATORY LANDSCAPE

13. INDIA ECONOMIC PROFILE

14. COMPETITIVE LANDSCAPE

14.1. Bharat Sanchar Nigam Limited

- 14.2. Bharti Airtel Limited
- 14.3. Atria Convergence Technologies Ltd.
- 14.4. Hathway Cable & Datacom Limited (Hathway)
- 14.5. Mahanagar Telephone Nigam Limited
- 14.6. Vodafone Idea Limited
- 14.7. Nextra Teleservices Pvt. Ltd.
- 14.8. YOU Broadband India Limited
- 14.9. Excitel Broadband
- 14.10. Shyam Spectra Pvt. Ltd.

15. STRATEGIC RECOMMENDATIONS

(Note: The companies list can be customized based on the client requirements)
