## Abstracts

Italy plastic recycling market stood at 2.05 Million Tonnes in 2020 and is forecast to reach 3.51 Million Tonnes by 2030, growing at a healthy CAGR of 5.76% until 2030. Plastic has started adversely impacting marine life in the region, which has increased the demand for plastic waste recycling, thereby fuelling the market growth during the forecast period. Furthermore, the Italian government has been asked to stop the illegal export of plastic waste to Malaysia. This will lead to an increase in plastic recycling in the country, thereby augmenting the plastic recycling market growth. In 2020, Italy-based chemical company, Versalis had introduced a project for developing a new technology to chemically recycle plastic waste as well as pyrolysis technology to transform mixed plastic waste into feedstock for new polymers. Besides, investments made by key stakeholders for plastic waste management are likely to spur the demand for the plastic recycling market in the coming years. The COVID-19 pandemic increased the plastic demand exponentially, however, inappropriate plastic disposal due to lack of labor force in the country affected the Italy Plastic Recycling market negatively. However, the plastic recycling market is expected to bounce back with stringent measures of the government and rapid adoption of plastic by various end-user industries.

Under this subscription, you would be able to access Italy Plastic Recycling market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry including, but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to Plastic Recycling.

Years Considered for Analysis:

Base Year: 2020

Estimated Year: 2021

Forecast Period: 2022 – 2030

This report will be delivered on an online digital platform with a one-year subscription and quarterly update.

#### Deliverables

Installed Capacity By Company-Installed capacity within the country along with the individual capacity of leading players

Installed Capacity By Location-Installed capacity at several locations across the country

Production By Company-Actual production done by different companies

Operating Efficiency By Company-Operating efficiency at which different companies are operating their plants

Demand By End Use-Demand/Sale of Plastic Recycling in different end-user industries across the country

Demand By Sales Channel-Demand/Sale of Plastic Recycling by different sales channels across the country

Demand By Region-Demand/Sale of Plastic Recycling in different regions of the country

Country Wise Exports-Exports of Plastic Recycling by Different Countries

Country Wise Imports-Imports of Plastic Recycling by Different Countries

Demand & Supply Gap-Demand & Supply Gap at country level

Market Share of Leading Players-Revenue shares of leading players in the country

News & Deals-Historical & Current News & Deals in the Plastic Recycling market

To extract data for the Italy Plastic Recycling market, the ChemAnalyst team conducts primary research surveys with Plastic Recycling manufacturers, suppliers, distributors, wholesalers, and customers, followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys.
