Abstracts

The Japan mining drilling services market is expected to grow at a rate of significant CAGR in the forecast period, FY2023-FY2027. The use of advanced technologies and equipment and the growing competition among the market players influence market demand. An increase in the need for minerals and coal production and the affordability of availing mining drilling services are expected to fuel the need of the Japan mining drilling services market.

Mining drilling services refer to drilling operations carried out on a contractual basis for the extraction of minerals, metals, and coal. The services included in the mining drilling services include services for mine closure, exploration, production, and development along with body characterization, underground, and surface blast hole drilling. Mining drilling services improve the accuracy and efficiency of mining operations and enhance the safety of the workers, which is one of the main reasons they find applications in mineral, quarry, and coal mining.

Rise In Efforts to Boost Mining Industry Supports Market Growth

Increase in the efforts to flourish the mining industry as Japan depends majorly on the export of minerals and metals for its domestic usage. High-scale iron and steel production in the country requires extensive extraction and processing to make it suitable for use. The surge in the adoption of low-emission transportation and emission systems influences the demand for mining mineral sources. The use of advanced technology for integrating components in automobiles to use mineral-based fuel instead

of fossil-based fuel contributes to market growth. Favorable government policies to support the extraction of domestic metals and non-metals and extensive research and development activities are expected to create growth opportunities for the growth of Japan mining drilling services market.

Increasing energy requirements drives the market demand

Increasing energy requirements due to rapid industrialization and urbanization are fueling the demand for the adoption of advanced services to meet domestic demand. Coal is extracted in Japan and finds several applications, such as electricity generation. The government of Japan has suggested that the power companies maintain a higher efficiency to thermal plants and the plants using petroleum and liquified natural gas. By setting up a requisite high target, the government is hoping only the essential market players are expected to survive till the next decade and make the necessary upgrades to stay in the market, which enhances the quality and quantity of the mineral explored from the reserves.

Market Segmentation

The Japan mining drilling services market is segmented on the basis of mining type, type, regional distribution, and competition landscape. Based on the mining type, the market is divided into metal, coal, mineral, and quarry. Based on the type, the market is divided into surface and underground. The market is also studied on the basis of regional distribution and the regions are majorly divided into Hokkaido & Tohoku, Chubu, Chugoku, Kyushu, and Others.

Market Players

Furukawa Co. Ltd., Action Drill & Blast, Sumitomo Metal Mining Co., Ltd., Nittetsu Mining Co., Ltd., Boart Longyear Mining Company, United Tractors, Perenti Global Limited, are among the major market players in the Japan region that led the market growth of the Japan mining drilling services market.

Report Scope:

In this report, Japan mining drilling services market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Japan Mining Drilling Services Market, By Mining Type:

Japan Mining Drilling Services Market, By Mining Type (Metal, Coal, Mineral, and Quarry), By Type (Surface, Un...

Metal

Coal

Mineral

Quarry

Japan Mining Drilling Services Market, By Type:

Surface

Underground

Japan Mining Drilling Services Market, By Region:

Hokkaido & Tohoku

Chubu

Chugoku

Kyushu

Others

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in Japan mining drilling services market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY

3. IMPACT OF COVID-19 ON JAPAN MINING DRILLING SERVICES MARKET

4. EXECUTIVE SUMMARY

5. VOICE OF CUSTOMERS

6. JAPAN MINING DRILLING SERVICES MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Mining Type (Metal, Coal, Mineral, and Quarry)

6.2.2. By Type (Surface, Underground)

6.2.3. By Region

6.2.4. By Company (2020)

6.3. Product Market Map

7. JAPAN SURFACE MINING DRILLING SERVICES MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value & Volume

7.2. Market Share & Forecast

7.2.1. By Mining Type

7.2.2. By Region

8. JAPAN UNDERGROUND MINING DRILLING SERVICES MARKET OUTLOOK

8.1. Market Size & Forecast

8.1.1. By Value & Volume

8.2. Market Share & Forecast

8.2.1. By Mining Type

8.2.2. By Region

9. MARKET DYNAMICS

- 9.1. Drivers
- 9.2. Challenges

10. MARKET TRENDS & DEVELOPMENTS

11. POLICY & REGULATORY LANDSCAPE

12. SAUDI ARABIA ECONOMIC PROFILE

13. COMPANY PROFILES

- 13.1. Furukawa Co. Ltd.
- 13.2. Action Drill & Blast
- 13.3. Sumitomo Metal Mining Co., Ltd.
- 13.4. Nittetsu Mining Co., Ltd.
- 13.5. Boart Longyear Mining Company
- 13.6. United Tractors
- 13.7. Perenti Global Limited

14. STRATEGIC RECOMMENDATIONS

15. ABOUT US & DISCLAIMER

I would like to order

Product name: Japan Mining Drilling Services Market, By Mining Type (Metal, Coal, Mineral, and Quarry), By Type (Surface, Underground), By Region, Competition Forecast & Opportunities, FY2027

Product link: <https://marketpublishers.com/r/J976F31715A4EN.html>

Price: US\$ 4,400.00 (Single User License / Electronic Delivery)
