## **Abstracts**

Gas gensets are being widely used across various end use sectors such as healthcare, pharmaceutical industries, manufacturing facilities, landfill sites, water treatment, sewage facilities, among others, as back-up power sources in case of power grid failure or outage. Booming industrial and commercial sectors, the growing need to generate power through clean energy sources, inadequate and anachronistic power infrastructure, stringent environmental regulations and expanding pipeline infrastructure are expected to boost the demand for gas gensets in the region during the forecast period.

According to TechSci Research report, "Middle East & Africa Gas Gensets Market, Competition Forecast & Opportunities, 2012–2026", Middle East & Africa gas gensets market is projected to reach USD583.14 million by 2026. Saudi Arabia and the UAE dominated the gas gensets market in 2016 and the trend is expected to continue over the coming years as well. Cummins Inc., Caterpillar Inc., General Electric Co., Generac Power Systems, MTU Onsite Energy, Wartsila Corporation, Kohler SDMO, Doosan Infracore Co., Ltd., Dresser Rand Group Inc., and Himoina S.L. were some of the major players operating in Middle East & Africa gas gensets market. "Middle East & Africa Gas Gensets Market, Competition Forecast & Opportunities, 2012–2026" report elaborates following aspects of gas gensets market in Middle East and Africa:

Middle East and Africa gas gensets Market Size, Share & Forecast

Segmental Analysis – By Rating (Low Rating, Medium Rating, High Rating and Very High Rating), By End-User (Industrial, Commercial and Residential) and By Country (Saudi Arabia, UAE, Iran, Nigeria, South Africa, Qatar and Rest of Middle East & Africa)

Policy & Regulatory Landscape

Changing Market Trends and Emerging Opportunities

Competitive Landscape and Strategic Recommendations

## **WHY YOU SHOULD BUY THIS REPORT?**

To gain an in-depth understanding of gas gensets market in Middle East and Africa

To identify the on-going trends and segment wise anticipated growth in the coming years

To help industry consultants, tire companies and other stakeholders to align their market-centric strategies

To obtain research based business decision and add weight to presentations and marketing material

To gain competitive knowledge of leading players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

## **REPORT METHODOLOGY**

The information contained in this report is based on both primary and secondary sources. Primary research included interviews with gas gensets manufactures, gas gensets companies, distributors, retailers and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
