## **Abstracts**

Africa is expected to be a lucrative market in the region, on account of improving economic conditions. In 2014, GDP growth in Africa was 4.5%, which is further forecast to reach 5% in 2017. Moreover, growth in MEA oil & gas pipeline leak detection market can also be attributed to rising rate of crude oil theft across the region. In 2013, 100,000 barrels of crude oil was stolen daily from swamps and shallow waters in Nigeria. Hence, increasing initiatives by respective governments and growing requirement for detecting leaks due to pilferage, oil & gas pipeline leak and theft detection market in Africa is anticipated to showcase moderate growth through 2022.

According to “Middle East & Africa Oil & Gas Pipeline Leak and Theft Detection Market, Competition Forecast & Opportunities, 2012–2022”, the Middle East & Africa oil & gas pipeline leak and theft detection market is projected to reach \$ 0.26 billion by 2022. Few of the leading players in Middle East & Africa oil & gas pipeline leak and theft detection market include Honeywell International Inc, Yokogawa Electric Corp, Siemens AG, Schneider Electric, FMC Technologies, Emerson Process Management, GE Oil & Gas, Cisco Systems Inc., and Cameron International. “Middle East & Africa Oil & Gas Pipeline Leak and Theft Detection Market, Competition Forecast & Opportunities, 2012–2022” discusses the following aspects in the MEA oil & gas pipeline leak and theft detection market:
