Abstracts

North America Aircraft Maintenance Repair Overhaul (MRO) Market is growing due to increasing trend toward aircraft fleets and maintenance industry.

Aircraft Maintenance, repair, and overhaul (MRO) services are a necessary and unavoidable component of any airline organization. A properly maintained aircraft or one of its components can assist businesses in avoiding serious threats to their sustainability. Therefore, in order to support industry growth, participants in the aviation sector concentrate primarily on developing suitable business processes and infrastructure. Globally aircraft sales have increased by 9.4% in 2021 over 2020 reaching 2646 units. Aircraft producers like Airbus and Boeing are being encouraged to improve their production levels and provide maintenance services for these aircraft by the increased demand for air travel across North America.

In North America 968 general aviation piston aircrafts sold in 2021 contributing to nearly 69% of overall piston aircraft sold globally. Also, North America turboprop aircrafts sales increased to 277 in 2021. To provide better MRO services, governments in North America are heavily investing on aviation infrastructure. Many aircraft operators are developing the airports into MRO facilities by integrating all the available resources, facilities, and warehouses in order to provide fast and high-quality services. Due to

rising costs for aircraft upgrading as per rules and regulations, and environmental concerns for the retirement of aging fleets, several engine development initiatives are being implemented.

North American nation's economic expansion has slowed down as a result of the COVID-19 outbreak. The aviation industry was significantly impacted by this economic downturn. Due to the COVID-19 pandemic, countries in North America, have greatly constrained economic activity as well as the movement of people and goods, which has slowed the expansion of the North American aviation MRO business. North America commercial activity decreased in 2020 as a result of the pandemic, but it has since increased and is expected to continue to rise in the upcoming years, according to the aviation industry.

Increasing Demand from Aging Aircraft Fleet

The size of the aircraft fleet in North America is one of the largest in the world. With the advancement of design and manufacturing technologies, aircraft are becoming more dependable. Faster plane adoption is also being driven by airline firms' desire to utilize more fuel-efficient planes, which has increased fleet size and increased demand for used aircraft parts. Because older aircraft require greater MRO services in a shorter timeframe, the MRO market in North America is expanding. Moreover, the demand for aircraft MRO services is anticipated to be driven by the need for maintenance and repair of aircraft in developed regional markets such as North America.

Development in Digital Technology

The aircraft MRO industry has seen a significant transformation as a result of digital technology such as IoT integration and blockchain technology. MRO specialists can use portable displays to interface with the aircraft sensors. This makes it easier for them to scan the entire aircraft system and identifies any parts that require maintenance or replacement. The operators can quickly identify the components and prepare the shipments owing to the implications of these sensors for tracking within the supply chain. Furthermore, blockchain technology is being used into the MRO sector, where it is utilized to track flight activities, regular maintenance inspections, and aircraft operational status. Owing to above technologies, the aircraft can easily undergo inspections, necessary maintenance, and repairs. This results in faster MRO service time and increasing demand in coming years.

Rising Overall Cost of MRO Service

In the coming years, high maintenance costs are anticipated for commercial aircraft MRO. Component maintenance is a crucial aspect of the sector and occurs more frequently than other categories of maintenance work. Because of the price increases, there is now more competition in the market and less profit for the existing players. Leading industry companies are facing increased component cost, such as aircraft parts and replacement parts, as well as wages for aircraft technicians. These excessive expenditures are slowing down the expansion of the North American Aircraft MRO business.

Market Segmentation

The North America Aircraft Maintenance Repair Overhaul (MRO) Market is segmented based on aircraft type, component, end user, by country, and competitive landscape. On the basis of aircraft type, the market is segmented into fixed wing aircraft and rotary wing aircraft. Based on component, the market is divided into engine MRO, avionics MRO, airframe MRO, cabin MRO, landing gear MRO, and others. Based on end user, the market is divided into Commercial, Military, General Aviation. On the basis of Country wise segmentation in the market is divided into United States, Mexico, Canada.

Company Profiles

Safran SA, Lockheed Martin Corporation, GE Aviation, Delta TechOps, Rolls-Royce plc, Collins Aerospace, Bombardier Inc., Lufthansa Technik, AAR Corp., and Collins Aerospace are the key players developing advanced technologies to stay competitive in the market and enhance their product portfolio in the region to increase their customer outreach.

Report Scope:

In this report, North America Aircraft Maintenance Repair Overhaul (MRO) Market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

North America Aircraft Maintenance Repair Overhaul (MRO) Market, By Aircraft Type:

Fixed Wing Aircraft

Rotary Wing Aircraft

North America Aircraft Maintenance Repair Overhaul (MRO) Market, By Component:

Engine MRO

Avionics MRO

Airframe MRO

Cabin MRO

Landing Gear MRO

Others

North America Aircraft Maintenance Repair Overhaul (MRO) Market, By End User:

Commercial

Military

General Aviation

North America Aircraft Maintenance Repair Overhaul (MRO) Market, By Country:

United States

Mexico

Canada

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in North America

North America Aircraft Maintenance Repair Overhaul (MRO) Market By Aircraft Type (Fixed Wing Aircraft, Rotary...

Aircraft MRO Market.

Detailed analysis and profiling of additional market players (up to five).

Contents

- 1. Introduction
 - 1.1. Product Overview
 - 1.2. Key Highlights of the Report
 - 1.3. Market Coverage
 - 1.4. Market Segments Covered
 - 1.5. Research Tenure Considered

2. RESEARCH METHODOLOGY

- 2.1. Objective of the Study
- 2.2. Baseline Methodology
- 2.3. Key Industry Partners
- 2.4. Major Association and Secondary Sources
- 2.5. Forecasting Methodology
- 2.6. Data Triangulation & Validation
- 2.7. Assumptions and Limitations

3. EXECUTIVE SUMMARY

- 3.1. Market Overview
- 3.2. Market Forecast
- 3.3. Key Regions
- 3.4. Key Segments

4. IMPACT OF COVID-19 ON NORTH AMERICA AIRCRAFT MRO MARKET

5. VOICE OF CUSTOMER

- 5.1. Factors Influencing Purchase Decision
- 5.2. Brand Awareness
- 5.3. Brand Satisfaction Level

6. NORTH AMERICA AIRCRAFT MRO MARKET OUTLOOK

- 6.1. Market Size & Forecast
 - 6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Aircraft Type Market Share Analysis (Fixed Wing Aircraft, Rotary Wing Aircraft)

6.2.2. By Component Market Share Analysis (Engine MRO, Avionics MRO, Airframe MRO, Cabin MRO, Landing Gear MRO, Others)

6.2.3. By End User Market Share Analysis (Commercial, Military, General Aviation)

6.2.4. By Country Market Share Analysis

6.2.4.1. United States Market Share Analysis

6.2.4.2. Canada Market Share Analysis

6.2.4.3. Mexico Market Share Analysis

6.2.5. By Company Market Share Analysis (Top 5 Companies, Others – By Value, 2022)

6.3. North America Aircraft MRO Market Mapping & Opportunity Assessment

6.3.1. By Aircraft Type Market Mapping & Opportunity Assessment

6.3.2. By Component Market Mapping & Opportunity Assessment

6.3.3. By End User Market Mapping & Opportunity Assessment

6.3.4. By Country Market Mapping & Opportunity Assessment

7. UNITED STATES AIRCRAFT MRO MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Aircraft Type Market Share Analysis

7.2.2. By Component Market Share Analysis

7.2.3. By End User Market Share Analysis

8. CANADA AIRCRAFT MRO MARKET OUTLOOK

8.1. Market Size & Forecast

8.1.1. By Value

8.2. Market Share & Forecast

8.2.1. By Aircraft Type Market Share Analysis

8.2.2. By Component Market Share Analysis

8.2.3. By End User Market Share Analysis

9. MEXICO AIRCRAFT MRO MARKET OUTLOOK

9.1. Market Size & Forecast

9.1.1. By Value

9.2. Market Share & Forecast

9.2.1. By Aircraft Type Market Share Analysis

9.2.2. By Component Market Share Analysis

9.2.3. By End User Market Share Analysis

10. MARKET DYNAMICS

10.1. Market Drivers

10.2. Market Challenges

11. MARKET TRENDS AND DEVELOPMENTS

12. PORTER'S FIVE FORCES MODEL

12.1. Competitive Rivalry

12.2. Bargaining Power of Buyers

12.3. Bargaining Power of Suppliers

12.4. Threat of New Entrants

12.5. Threat of Substitutes

13. COMPETITIVE LANDSCAPE

13.1. Company Profiles (Up To 10 Major Companies)

13.1.1. Safran SA

13.1.1.1. Company Details

13.1.1.2. Key Products Offered

13.1.1.3. Recent Development

13.1.1.4. Key Management Personnel

13.1.2. Lockheed Martin Corporation

13.1.2.1. Company Details

13.1.2.2. Key Products Offered

13.1.2.3. Recent Development

13.1.2.4. Key Management Personnel

13.1.3. GE Aviation

13.1.3.1. Company Details

13.1.3.2. Key Products Offered

13.1.3.3. Recent Development

- 13.1.3.4. Key Management Personnel
- 13.1.4. Delta TechOps
 - 13.1.4.1. Company Details
 - 13.1.4.2. Key Products Offered
 - 13.1.4.3. Recent Development
 - 13.1.4.4. Key Management Personnel
- 13.1.5. Rolls-Royce plc.
 - 13.1.5.1. Company Details
 - 13.1.5.2. Key Products Offered
 - 13.1.5.3. Recent Development
 - 13.1.5.4. Key Management Personnel
- 13.1.6. Collins Aerospace
 - 13.1.6.1. Company Details
 - 13.1.6.2. Key Products Offered
 - 13.1.6.3. Recent Development
 - 13.1.6.4. Key Management Personnel
- 13.1.7. Bombardier Inc
 - 13.1.7.1. Company Details
 - 13.1.7.2. Key Products Offered
 - 13.1.7.3. Recent Development
 - 13.1.7.4. Key Management Personnel
- 13.1.8. Lufthansa Technik
 - 13.1.8.1. Company Details
 - 13.1.8.2. Key Products Offered
 - 13.1.8.3. Recent Development
 - 13.1.8.4. Key Management Personnel
- 13.1.9. AAR Corp.
 - 13.1.9.1. Company Details
 - 13.1.9.2. Key Products Offered
 - 13.1.9.3. Recent Development
 - 13.1.9.4. Key Management Personnel
- 13.1.10. Collins Aerospace
 - 13.1.10.1. Company Details
 - 13.1.10.2. Key Products Offered
 - 13.1.10.3. Recent Development
 - 13.1.10.4. Key Management Personnel

14. STRATEGIC RECOMMENDATIONS

14.1. Key Focus Areas

14.1.1. Target Regions & Countries

14.1.2. Target Aircraft Type

14.1.3. Target Component

15. ABOUT US & DISCLAIMER

I would like to order

Product name: North America Aircraft Maintenance Repair Overhaul (MRO) Market By Aircraft Type (Fixed Wing Aircraft, Rotary Wing Aircraft), By Component (Engine MRO, Avionics MRO, Airframe MRO, Cabin MRO, Landing Gear MRO, Others), By End User (Commercial, Military, General Aviation), By Country, Competition Forecast & Opportunities, 2018-2030

Product link: <https://marketpublishers.com/r/N915E7DD3B48EN.html>

Price: US\$ 4,400.00 (Single User License / Electronic Delivery)
