Abstracts

According to “North America IoT Engineering Services Market By Service, By End User Sector, By Country, Competition Forecast & Opportunities, 2013 – 2023” IoT engineering services market is projected to grow to \$ 11 billion by 2023, on the back of growing market of smart and connected devices and ongoing Industrial IoT adoption across the region. Smart technology penetration, rapidly proliferating commercialization, ongoing digital revolution, evolving business infrastructure and burgeoning security vulnerabilities are contributing to the growing competitive pressure in the marketplace, consequently, leading to the increasing deployment of IoT engineering services, to ensure business stability in the marketplace, across North America. Some of the major players operating in the market are Altran Technologies, SA, Capgemini SE, Cognizant Technology Solutions Corporation, IBM Corporation, Infosys Limited, Tata Consultancy Services, Tech Mahindra Limited, Happiest Minds Technologies Private Limited, eInfochips, Prodapt Solutions Private Limited, etc. “North America IoT Engineering Services Market By Service, By End User Sector, By Country, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of IoT engineering services market in North America:

IoT Engineering Services Market Size, Share & Forecast

Segmental Analysis – By Service (Product Engineering, Cloud Engineering, Experience Engineering, Security Engineering & Others), By End User Sector, By Country

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of IoT engineering services in North America

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, IoT engineering services distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with IoT engineering services distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
