Abstracts

According to “North America Marine Engines Market By Type, By Application, By Engine Power Rating, By Country, Competition Forecast & Opportunities, 2023” marine engines market is forecast to surpass \$ 2.5 billion by 2023. Growth in the market is led by growing usage of marine engines in both commercial and industrial sectors and increase in international maritime and trade activities due to cost effective mode of transportation. Moreover, growing trend of market consolidation and technological advancements in marine engines is further likely to steer growth in marine engine market across North America over the next five years. Additionally, rising use of marine engines in boats would further push their demand across the region during the forecast period. Few of the major players operating in North America marine engines market include Wärtsilä Corporation, MAN SE, Hyundai Heavy Industries, Rolls Royce Holdings Plc, Caterpillar Inc., General Electric, Cummins Inc., Mitsubishi Heavy Industries Marine Machinery & Equipment Co. Ltd., Volvo Penta, and Brunswick Corporation (Mercury Marine Inc). “North America Marine Engines Market By Type, By Application, By Engine Power Rating, By Country, Competition Forecast & Opportunities, 2023” discusses the following aspects of marine engines market in North America:

Marine Engines Market Size, Share & Forecast

Segmental Analysis – By Type (Main Propulsion, & Auxiliary Engine), By Application (Commercial, Defense, etc), By Engine Power Rating (750KW, 751-4000KW, 4001-8000KW, & 8000 KW), By Country

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of marine engines in North America

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, marine engines distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with marine engines distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
