Abstracts

According to “Qatar Switchgear Market By Type, By End User, Competition Forecast & Opportunities, 2013-2025” switchgear market is projected to surpass \$ 1 billion by 2025, owing to high investments in development of infrastructure such as stadiums, hotels, etc., for the preparation of FIFA World Cup 2022 coupled with increasing power consumption, majorly due to rising demand for desalination plants and cooling systems. Moreover, the Government of Qatar is investing in development of airports, metros, etc., and is also making significant strides in power transmission as a part of Qatar National Vision, 2030, which is likely to drive demand for switchgears in Qatar in the coming years. In addition, there is a significant focus towards development of renewable energy sources in Qatar, with Qatar Petroleum & Qatar Electricity and Water Company (QEWC) developing Siraj Energy solar project, which is further anticipated to positively influence Qatar switchgear market during forecast period. Some of the companies operating in Qatar switchgear market are Siemens WLL, Schneider Electric FZE, ABB LLC, Eaton FZE, L&T Electrical & Automation FZE, Al Farraj Trading & Manufacturing Company, Al-Bidda Group, Q-Tec Switchgear W.L.L, Lucy Switchgear FZE, and Elimsan Switchgear Equipment & Electromechanical Industry and Trade Inc., among others. “Qatar Switchgear Market By Type, By End User, Competition Forecast & Opportunities, 2013-2025” discusses the following aspects of switchgear market in Qatar:
