Abstracts

Russia Methanol market stood at 1646.55 Thousand Tonnes in 2020 and is forecast to reach 2598.27 Thousand Tonnes by 2030, growing at a healthy CAGR of 4.17% until 2030. The Russia Methanol market is being driven by the high focus on the production of bio-based chemical commodities across various end-user industries like automotive, construction, adhesives, paints, and coatings. Due to the outbreak of COVID-19 the market faced a setback as the major end-user industries were shut down. The government imposed lockdown restrictions and trade barriers which disrupted the supply chain of the Methanol market thereby negatively impacting the market growth in Russia.
