Abstracts

Saudi Arabia CT scanners market is bound to experience impressive growth with anticipated CAGR in the forecast period, 2023-2027, on the account of expanding diagnostic imaging demands. Surge in the demand for early diagnosis and effective treatment is anticipated to drive the growth of the Saudi Arabia CT scanners market in the upcoming five years.

CT scanners are the diagnostic imaging medical devices that generate X-ray generated images of the patient. Computed tomography (CT) scanners are actively utilized in the lines of radiology to identify and diagnose patient's symptoms and generate images in a non-invasive way. Experts known as radiographers are skilled to perform CT scans on the patients and radiologists, and doctors read through the scans to understand the underlying cause of the disease. The series of X-ray images taken from various angles utilizes a computerized process to create cross-section images known as slices of soft tissues, blood-vessels, and bones. The images taken from different angles confirm better result and better images simple X-ray image thus diagnosis is efficient.

The Kingdom of Saudi Arabia registered 45% of the population at the risk of

cardiovascular diseases in 2020. In the report of Globocan 2020, 27,885 new cancer cases were registered among the population of the country out of which 13, 069 lives were claimed. The increasing instances of such chronic diseases is expected to drive the growth of the Saudi Arabia CT scanners market in the upcoming five years. Early diagnosis for the chronic diseases like cardiovascular diseases, cancerous diseases, also drives the growth of the Saudi Arabia CT scanners market in the next five years.

Increasing cases of chronic diseases have created major concerns among the population regarding early diagnosis. Now, not only on the doctor's recommendations, but through self-modulated regular checkups involving diagnostic tests and scans have increased the demand for the CT scanners in the country. Health conscious population actively invest in these health checkups and even government holds regular drives to motivate the population thereby substantiating the growth of the Saudi Arabia CT scanners market in the future five years.

Market Segmentation

The Saudi Arabia CT scanners market segmentation is based on slice, modality, device architecture, application, end users, competition landscape, and regional distribution. Based on slice, the market is segmented into 8-slice, 16-slice, 32-slice, 64-slice, 128-slice & above. On the basis of modality, the market is further bifurcated into fixed and mobile. Device architecture segment is differentiated between O-arm and C-arm. Based on application, the market is also fragmented into cardiology, oncology, neurology, and others. On the basis of end user, market is defined into hospitals, diagnostic centers, and others. The market analysis also studies the regional segmentation to devise regional market segmentation, divided among Northern & Central region, Southern region, Eastern region, Western region.

Company Profile

GE Healthcare, Philips Healthcare Saudi Arabia, Medtronic Saudi Arabia, Siemens Medical Solutions Saudi Arabia, Canon Medical Systems Saudi Arabia, Fujifilm Saudi Arabia, Hitachi Medical Systems Saudi Arabia, among others is a partial list of major market players of the companies responsible for the growth of Saudi Arabia CT scanners market.

Report Scope:

In this report, Saudi Arabia CT scanners market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Saudi Arabia CT Scanners Market, By Slice:

8-slice

16-slice

32-slice

64-slice

128-slice & above

Saudi Arabia CT Scanners Market, By Modality:

Fixed

Mobile

Saudi Arabia CT Scanners Market, By Device Architecture:

O-Arm

C-Arm

Saudi Arabia CT Scanners Market, By Application:

Cardiology

Oncology

Neurology

Others

Saudi Arabia CT Scanners Market, By End User:

Hospitals

Diagnostic Centers

Others

Saudi Arabia CT scanners Market, By Region:

Northern & Central Region

Southern Region

Western Region

Eastern Region
