Abstracts

Saudi Arabia EVA demand stood at 65.62 Thousand Tonnes in 2020 and is forecast to reach 108.18 Thousand Tonnes by 2030, growing at a healthy CAGR of 4.84% until 2030 due to increasing demand and exports of the product. Some of the major manufacturing facilities are located in Saudi Arabia and they are planning to expand their production capacities due to rising global demand. In Saudi Arabia, the demand for EVA is increasing due to the rising demand for comfortable and expensive footwear that is expected to increase the demand further in the forecast period. COVID-19 pandemic had a severe impact on the market, in general, and disrupted the country's economy. The manufacturing units were closed for a significant amount of time and disturbed the distribution channels. The rising threat of mass death convinced the government to maintain lockdown methods keeping the markets at a halt. The import and export chain suffered due to government policies to avoid any travel and transportation. The government is slowly controlling the consequences, and steadily market is regaining its composure. With a steady CAGR in the upcoming forecast years, the market may grow and present as a potential investment for the new market player that supports the market growth in the future.
