Abstracts

Saudi Arabia telecom system integration market is projected to grow from \$ 420 million in 2018 to \$ 683 million by 2024. Anticipated growth in the market can be attributed to increasing adoption of cloud technologies and growth number of online transactions and mobile devices across the country. Moreover, fierce competition in telecom sector along with rising trend of convergent billing system is further likely to fuel growth in Saudi Arabia telecom system integration market in the coming years.

Among applications, Operation Support System (OSS) segment dominates Saudi Arabia telecom system integration market as OSS helps telecom service providers to improve their operational activities and to detect and resolve network faults in order to reduce service downtime. However, Network Management System segment is expected to grow at the fastest pace during forecast period as it monitors the software and hardware components in a network and allows telecom service providers to monitor their business using a central computer.

Years considered for this report:

Historical Years: 2014-2017

Base Year: 2018

Estimated Year: 2019

Forecast Period: 2020-2024

Objective of the Study:

To define, segment, describe and forecast Saudi Arabia telecom system integration market on the basis of Application, Deployment Type, Region and Company.

To analyze and forecast Saudi Arabia telecom system integration market size.

To scrutinize the detailed market segmentation and forecast the market size by segmenting Saudi Arabia telecom system integration market into application, namely, Operations Support Systems, Business Support Systems, Network Management and Others.

To identify the drivers and challenges for Saudi Arabia telecom system integration market.

To strategically profile leading players in the market which are driving innovation and technological advancements in Saudi Arabia telecom system integration market.

Key players in Saudi Arabia telecom system integration market include Tata Consultancy Services Saudi Arabia, Accenture Saudi Arabia Ltd., Saudi Ericsson Communications Co Ltd, Huawei Tech Investment Saudi Arabia Co., Ltd, IBM Middle East FZ-LLC, Tech Mahindra Arabia Limited, HP Services Saudi Arabia, Nokia Solutions and Networks Al-Saudia Ltd., Cognizant Technology Solution Saudi Arabia L.L.C., and Wipro Arabia Limited.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of telecom system integrators in Saudi Arabia. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. TechSci Research further analyzed the offerings or variants of major telecom system integrators.

TechSci Research calculated the market size for Saudi Arabia Telecom system integration market using a bottom-up approach, wherein data for different components for standard application were recorded and forecast for the future years. TechSci Research sourced these values from industry experts and company representatives, and these were externally validated through analyzing historical data of telecom system integrators market to arrive at the overall market size. Various secondary sources such as secondary company websites, company annual reports, press releases, white papers, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Saudi Arabia telecom system integrators

Associations, organizations and alliances related to telecom system integrators

Government bodies such as regulating authorities and policy makers

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for industry stakeholders such as telecom system integrators, companies, customers and policy makers, about the targeted market segments in coming years in order to strategize investments and capitalize on the growth of market segment.

Report Scope:

In this report, Saudi Arabia telecom system integration market has been segmented into the following categories in addition to the industry trends which have also been detailed below:

Market by Application:

Operations Support Systems

Business Support Systems

Network Management Systems

Others
Market by Deployment Type:
On-Premises
Cloud
Market by Region:
Central
Western
Eastern
Rest of Saudi Arabia
Market by Company:
Tata Consultancy Services Saudi Arabia
Accenture Saudi Arabia Ltd.
Saudi Ericsson Communications Co Ltd
Huawei Tech Investment Saudi Arabia Co., Ltd
IBM Middle East FZ-LLC
Others
