## **Abstracts**

According to “Singapore Managed Security Services Market By Service Type, By Deployment Type, By End User Sector, Competition Forecast & Opportunities, 2013-2023” managed security services market is projected to cross \$ 600 million by 2023. With growing use of smart devices and rapid increase in cyberattacks, companies across the country are deploying managed security services to safeguard their sensitive data. Booming Internet of Things market, rising number of government initiatives and emergence of mobile applications and Bring Your Own Device concept is expected to positively influence the country’s managed security services market over the coming years. Moreover, the framing of new security legislation and mandates aimed at protecting and safeguarding sensitive data would aid the managed security services market in Singapore during the forecast period. Some of the major players operating in Singapore managed security services market are IBM Singapore Pte. Ltd., NTT Singapore Pte. Ltd., DXC Technology Singapore Pte.
