Abstracts

South America Plastic recycling market stood at 5.74 Million Tonnes in 2020 and is forecast to reach 9.696 Million Tonnes by 2030, growing at a healthy CAGR of 4.87% until 2030. Regulations regarding the minimum use of recycled plastics in countries like Brazil, Argentina, Chile due to environmental concerns of plastic pollution are anticipated to increase the plastic recycling market in South America. Also, increasing demand for plastics in sectors like building & construction, packaging, automotive due to their use of plastic materials is expected to increase the demand of plastic recycling market. Rising demand from other sectors including electrical & electronics due to their application of recycled plastics in the manufacturing of various components is also boosting the market growth. Increasing investments by companies in plastic recycling technologies due to their energy-saving application compared to virgin plastics is also set to drive the demand of plastic recycling market during the forecast period. The COVID-19 pandemic resulted in an exponential increase in plastic use across various industries, which has created a need for plastic recycling to reduce environmental concerns. Besides, government stringent measures to curb landfill pollution caused by plastic and enhance application of recycled plastic are likely to contribute towards the South America Plastic Recycling market growth.

Under this subscription, you would be able to access South America Plastic Recycling market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry including but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to Plastic Recycling.

Years Considered for Analysis:

Historical Years: 2015 – 2019

Base Year: 2020

Estimated Year: 2021

Forecast Period: 2022 – 2030

This report will be delivered on an online digital platform with a one-year subscription and quarterly update.

Deliverables

Installed Capacity By Company-Installed capacity within the country along with the individual capacity of leading players

Installed Capacity By Location-Installed capacity at several locations across the country

Production By Company-Actual production done by different companies

Operating Efficiency By Company-Operating efficiency at which different companies are operating their plants

Demand By End Use-Demand/Sale of Plastic Recycling in different end-user industries across the country

Demand By Sales-Channel Demand/Sale of Plastic Recycling by different sales channels across the country

Demand By Country-Demand/Sale of Plastic Recycling in Brazil, Argentina

Country Wise Exports-Exports of Plastic Recycling by Different Countries

Country Wise Imports-Imports of Plastic Recycling by Different Countries

Demand & Supply Gap-Demand & Supply Gap at country level

Market Share of Leading Players-Revenue shares of leading players in the country

News & Deals-Historical & Current News & Deals in the Plastic Recycling market

To extract data for the South America Plastic Recycling market, the ChemAnalyst team conducts primary research surveys with Plastic Recycling manufacturers, suppliers, distributors, wholesalers, and customers followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys.
