Abstracts

According to “South America Stormwater Management Market By Tool, By Application, By Country, Competition Forecast & Opportunities, 2013 – 2023” stormwater management market is projected to reach \$ 1.32 billion by 2023, on the back of increasing number of intense floods and storms across the region. Rising urbanization, technological advancements and growing investments towards water infrastructure and management systems are some of the other key factors expected to drive the region’s stormwater management market in the coming years. Moreover, growth in the market is anticipated to be driven by shift in government focus towards the adoption of advanced water management systems as compared to traditional wastewater and water management systems across the region. Some of the major players operating in the South America stormwater management market are Contech Engineered Solutions LLC, Forterra Inc., Advanced Drainage Systems, Inc., Campbell Scientific do Brasil Ltda, Ecosol PTY Ltd., Hydro International, Old Castle Precast, Inc., ACQUA SYSTEMS, StromTrap LLC, Suntree Technologies Inc., etc. “South America Stormwater Management Market By Tool, By Application, By Country, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of stormwater management market in South America:
