Abstracts

Two-wheelers can be segmented on the basis of type into motorcycles and scooters. Motorcycles are two-wheelers with engine mounted in middle and fuel tank above it. Whereas, scooters are two-wheelers with engine located in between the rider and the rear. Demand for two-wheelers in South America region declined at a significant pace during 2011-2015, owing to economic slowdown witnessed in most of the countries in this region. Two-wheeler market in Brazil, Argentina and Colombia were also impacted by the political instability witnessed in these countries over the past few years. Moreover, economy of Venezuela has been in a state of recession since 2009, which significantly impacted the two-wheeler market in the country. However, economic crises in most of the countries in South America is anticipated to fade away in the coming years, which would significantly boost demand for two-wheelers in the region during the forecast period. Furthermore, rapid urbanization and lack of proper public transport infrastructure are other major factors anticipated to boost growth in South America two-wheeler market during 2016-2021.

According to TechSci Research report, "South America Two-Wheeler Market By Type, By Country Competition Forecast & Opportunities, 2011 – 2021", two-wheeler market in South America is projected to cross USD7 billion by 2021.
