## **Abstracts**

South Korea Ethylene Vinyl Acetate demand stood at 180 Thousand Tonnes in 2020 and is forecast to reach 285.41 Thousand Tonnes by 2030, growing at a healthy CAGR of 4.81% until 2030. South Korea is one of the largest manufacturers of EVA on a global level and it exports bulk quantities to other Asian and European countries. In South Korea, with the changing consumer behavior, the demand for the packaged goods has increased consequently increasing the demand for EVA films and adhesives. The country is a net exporter of EVA due to the rising global demand for the product. Coronavirus infection spread due to the COVID-19 virus caused disruptions in the world economy. The country's economy was affected drastically too. The pharmaceutical and healthcare industry was running on overdrive, though the market functions were limited to necessity products. Manufacturing units shut down for a significant amount of time, and the market suffered heavily due to disturbance in the distribution channel. The import and export chain suffered due to government policies to avoid any travel and transportation. After suffering the consequences for a year, the market is expected to regain its composure and register its growth with a steady CAGR in the ten years of forecast.

Under this subscription, you would be able to access South Korea Ethylene Vinyl Acetate (EVA) market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry including but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to

Ethylene Vinyl Acetate (EVA).

#### Deliverables

**Installed Capacity By Company:** Installed capacity at a regional level along with the individual capacity of leading players

**Installed Capacity By Location:** Installed capacity at country level

**Installed Capacity By Process:** Installed capacity by different processes

**Installed Capacity By Technology:** Installed capacity by different technologies being used to produce Ethyl Vinyl Acetate Chemicals

**Production By Company:** Actual production done by different companies

**Operating Efficiency By Company:** Operating efficiency at which different companies are operating their plants

**Demand By End Use:** Demand/Sale of Ethyl Vinyl Acetate Chemicals in different end-user industries across the region

**Demand By Sales Channel:** Demand/Sale of Ethyl Vinyl Acetate Chemicals by different sales channels across the region

Demand By Region: Demand/Sale of Ethyl Vinyl Acetate Chemicals in different regions of the country

Demand & Supply Gap: Demand & Supply Gap at country level

Market Share of Leading Players: Revenue shares of leading players in the region.

News & Deals: Historical & Current News & Deals in Ethyl Vinyl Acetate Chemicals market

To extract data for South Korea Ethylene Vinyl Acetate (EVA) market, the ChemAnalyst team conducts primary research surveys with Ethylene Vinyl Acetate (EVA) manufacturers, suppliers, distributors, wholesalers, and customers followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys
