Abstracts

Spain skip loader market valued at USD12.61 million in 2021 and is anticipated to project a robust growth in the forecast period with a CAGR of 6.37% on account of the various initiatives undertaken by corporates for environmental sustainability and the escalating demand for energy consumption by industries. A skip loader refers to a construction machine that moves or loads materials including sand, demolition waste, soil, rock, and other materials into or onto another type of machinery (such as a dump truck, conveyor belt, feed-hopper, or railroad car). A loader can be referred to as a bucket loader, front loader, front-end loader, payload, high lift, scoop, shovel, skip loader, wheel loader, or skid-steer, according to its design and application.

The increasing use of skip loaders for consignments and shipments transportation in logistics is primarily driving the market growth. The growing waste management budgetary expenditures and political influence propel the waste management demand across Spain. The inflating need for skip loaders is due to the expansion of the waste management industry. The extensive expenditures in sustainable infrastructure development are projected to escalate the demand for construction equipment such as skip loaders for moving construction materials and disposing of construction trash. The growing demand for skip loaders owing to the infrastructure development and the elevating popularity of fully electric equipment is expected to bolster the market growth in the coming years.

The Spain skip loader market is segmented based on capacity, product type, application, region, and company. Based on product type, the market is segmented into normal, telescopic, others. Telescopic segment is the dominant with a market share of 69.77%. Telescopic skip loaders save cost and requires minimal time for the operations.

Several prominent market players that support the market growth of the Spain skip loader market are Hyva Iberica SA, Cayvol Comercial, S.L., VDL Groep BV, Pris-Mag Srl, Palfinger Ib?rica, S.L., Meiller Iberia SL, Hiab Iberia S.L.U., Marrel SAS, and BoB Sistemi Idraulici SpA.
