## **Abstracts**

The Thailand LPG industry market demand stood at 3.47 Million Tonnes in 2020 and is forecast to reach 8.07 Million Tonnes by 2030, growing at a healthy CAGR of 8.47% until 2030. LPG consumption in Thailand is strongly driven by the households using it as a cooking gas, transport (especially for taxis), petrochemical businesses, and other industrial operations. Increasing demand for cheaper and cleaner energy-intensive fuels backed by the government-led initiatives to promote LPG consumption is forecasted to support the LPG market growth in the forecast period. The outbreak of COVID-19 impacted adversely the growth of the LPG market in Thailand as the demand from the commercial sector and industrial sector subsided. Disruption in the supply chain coupled with restrictions imposed by the leading authorities further contributed to hinder the market growth.

Under this subscription, you would be able to access Thailand LPG market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry including but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to LPG.

Years Considered for Analysis:

Historical Years: 2015 – 2018

Base Year: 2019

Estimated Year: 2020

Forecast Period: 2021 – 2030

This report will be delivered on an online digital platform with a one-year subscription and quarterly update.

## Deliverables

**Installed Capacity By Company:** Installed capacity within the country along with the individual capacity of leading players
