Abstracts

UAE blood bags market is anticipated to register growth with an impressive CAGR in the forecast period, 2023-2027, on the account of increasing instances of surgeries. Rapidly growing instances of blood-related diseases like anemia, cancer, hemophilia, kidney diseases, etc. further drive the growth of the UAE blood bags market in the upcoming five years.

Growing Disease Burden Drive Market Growth

Increasing instances of blood-related diseases and specific genetic disorders that require blood transfusion are majorly driving the growth of the UAE blood-bags market in the upcoming five years. UAE accounts for more than 400 genetic disorders in its population. The growing instances of genetic disorders that require blood transfusion present in the country include thalassemia, sickle cell, anemia, hemophilia, and G6PD deficiency.

Thalassemia instances are increasing due to increasing marriages between carrier

gene populations. Over 50% of the population in the country carry the genes responsible for causing thalassemia when expressed in dominance. Thus, potentially increasing the number of the patients in future. Government-aided awareness drives and premarital screenings for the carrier genes are further help in controlling the numbers but as far as recent reports are confirmed, the instances are increasing and thus driving the growth of the market.

Surgical Approaches Promise Market Growth

Increasing surgical treatments of various chronic diseases and the growing instances of chronic diseases among the population are driving the growth of the UAE blood-bags market in the upcoming five years. Increasing instances of cardiovascular diseases, cancer, etc. have increased the surgical approaches of treatment for the disease aiding the demand for the blood bags being used during surgeries and supporting the growth of the UAE blood bags market in the next five years.

Moreover, factors like the growing number of blood banks in the country further substantiate the market growth. In the year 2018, there were 8 blood banks in the country, and the numbers have increased since. Growing numbers of accidents, road accidents, industrial accidents, etc. are further aiding the demands for surgeries for treatment and thus the growth of the UAE blood bags market in the next five years. Also, growing awareness among the population regarding blood donations is substantiating the market growth. Dubai Blood Donation Centre (DBDC) received over 53,000 units in 2019, approximately 50% of the total blood collected throughout the country. The count increased to 55,000 in Dubai alone by 2021.

Market Segmentation

The UAE blood bags market is segmented by product type, type, volume, material, end user, competition landscape, and regional distribution. Based on product type, the market is further segmented into a single blood bag, double blood bag, triple blood bag, quadruple blood bag, and penta blood bag. By type, the market is differentiated between collection bags and transfer bags. Based on volume, the market is fragmented into 100ml, 150ml, 250ml, 300ml, 350ml, 400ml, 450ml, and 500ml. By material, the market is bifurcated into PVC, PET, and others. Based on end users, the market is sub-segmented into hospitals, clinics, ambulatory surgical centers, blood banks, and others. The market analysis also studies the regional segmentation to devise regional market segmentation, divided among Abu Dhabi, Dubai, Sharjah, and the rest of UAE.

Company Profile

Terumo Middle East FZE, Fresenius Medical Care Middle East FZ LLC, Cytomed, Teleflex UAE, MacoPharma UAE, Grifols International S.A. Dubai R.O., among others is a partial list of major market players of the companies responsible for the growth of UAE blood bags market.

Report Scope:

In this report, the UAE blood bags market has been segmented into the following categories, in addition to the industry trends which have also been detailed below:

UAE Blood Bags Market, By Product Type:

Single Blood Bag

Double Blood Bag

Triple Blood Bag

Quadruple Blood Bag

Penta Blood Bag

UAE Blood Bags Market, By Type:

Collection Bag

Transfer Bag

UAE Blood Bags Market, By Volume:

100ml

150ml

250ml

300ml

350ml

400ml

450ml

500ml

UAE Blood Bags Market, By Material:

PVC

PET

Others

UAE Blood Bags Market, By End User:

Hospitals

Clinics

Ambulatory Surgical Center

Blood Banks

Others

UAE Blood Bags Market, By Region:

Abu Dhabi

Dubai

Sharjah

Rest of the UAE
